Education Statistics Ontario

Education Statistics, Ontario 1973

Ontario

Ministry of
Education

HON. THOMAS L. WELLS
Minister

Introduction

The statistics contained in this publication previously were published within the *Report of the Minister of Education to the Legislative Assembly of Ontario*. This present publication contains 66 statistical tables, which are grouped under seven sections. The first section presents a general introduction to the detailed tabulations that follow. The remaining sections deal with statistics concerning teachers, students, elementary and secondary schools, private schools, provincial schools, and the financing of education and school board expenditures in Ontario.

Section 1—SUMMARY

This section provides an overall view of publicly supported education in Ontario.

Schools

In September 1973 there were 2,718 public schools and 1,320 Roman Catholic separate schools in operation in Ontario; together they accounted for 4,038 elementary schools in the province, while the number of secondary schools in operation was 611. Schools for the trainable retarded numbered 138; schools in a medical setting, situated in hospitals, sanatoria, or other treatment centres, numbered 17. In addition, the Ministry of Education operated 16 provincial schools, so that the total number of Ontario schools in operation in 1973 was 4,820.

School Boards

As of September 30, 1973 there were 192 boards that operated schools. This figure represents a net total and excludes the duplication that occurs when boards operate two or more types of schools. Of the 180 boards that operated elementary and/or secondary schools, 119 boards operated only public schools, 78 of the 119 boards also operated secondary schools, and 61 boards operated Roman Catholic separate schools.

Enrolment

As of September 30, 1973, 1,422,885 students were enrolled in elementary schools. Of these, 998,668 were enrolled in public schools and 424,217 in Roman Catholic separate schools. The number of students enrolled in elementary schools continued to decline: there were 22,216 fewer students enrolled in 1973 compared with 1972. Secondary school enrolment for the same year totalled 585,725. Schools for the trainable retarded reported an enrolment of 6,442. Provincial schools accounted for an enrolment of 2,705. Altogether, 2,018,276 students were enrolled in publicly supported schools.

Population and Enrolment

Enrolment figures for elementary and secondary schools in 1973 represented 25.3 per cent of the total population of Ontario. Age-group analysis shows that in that year elementary school enrolment constituted 94.7 per cent of the population between the ages of 4 and 13 (inclusive) and secondary school enrolment, 76.2 per cent of the population between the ages of 14 and 18 (inclusive).

Estimated Progress of Students

Using 1969 Grade 9 enrolment figures as a basis and assuming that students progress in school at the normal rate, 34 per cent of the students who entered secondary school in 1969 were enrolled in grade 13 in 1973, compared with 36 per cent in 1972. A similar change was noted in grade 12 enrolment: 72 per cent of the students initiated

rolled in grade 9 were in grade 12 in 1971, and 69 per cent in 1972. The number of secondary school students remaining in school until the diploma year(s) is continuing decrease.

Section 2—TEACHERS

This section provides information regarding the 56,630 elementary school teachers and 33,889 secondary school teachers who were employed during the school year 1972-73 and reviews their qualifications.

Withdrawals and Acquisitions

Table 2.11 illustrates the reasons for which teachers left their teaching positions and the areas from which new teachers were drawn. There were 1,360 fewer teachers employed in public elementary schools in 1973 compared with 1972. The number of teachers employed in Roman Catholic separate schools remained fairly constant since 1972. The number of secondary school teachers in 1973 totalled 33,889; this figure represents a reduction of 660 teachers since 1972. A total of 2,833 elementary teachers, the largest number to withdraw, left the profession to "resume household ties"; 581 secondary school teachers left for the same reason. The number of elementary school teachers who retired was 1,101; the number of secondary school teachers, 416. Those who left the teaching profession for new areas of employment numbered 1,344 at the elementary school level and 958 at the secondary school level. Altogether 7,569 elementary school teachers and 2,960 secondary school teachers withdrew from the teaching profession.

The largest number of elementary and secondary school teachers came from teacher education institutions. The number of graduates from teacher education programs who were hired at the elementary school level was 2,622; at the secondary school level, 52. Qualified teachers re-entering the profession totalled 1,213 in the elementary schools and 341 in the secondary schools. Former part-time teachers who took on full-time teaching numbered 631 at the elementary school level and 123 at the secondary school level.

The number of teachers who withdrew their services during the school year 1972-73 was greater than the number hired: in other words, the number of teachers decreased.

Qualifications of Full-Time Teachers

Teachers classified as *Standard 4* comprised 30.1 per cent of the total number of elementary school teachers: the second-largest category—28.1 per cent—was made up of those classified as *Standard 2*; while *Standard 1* teachers accounted for 23.4 per cent of the total. At the secondary school level, teachers with permanent certificates numbered 33,083 (nearly 97.7 per cent), whereas those with temporary certificates numbered 806 (2.3 per cent).

Tables 2.31 and 2.32 illustrate the number of teachers enrolled in the various colleges in Ontario. Other statistics such as the number of teachers enrolled in summer courses and the number of certificates issued during the school year 1972-73 are shown in other tables contained in this section.

Section 3—STUDENTS

This section contains 19 of the 66 statistical tables to be found in this publication and provides the following information: enrolment figures for students from within the province and for students from other provinces or countries; statistics classifying students according to school and grade; age and sex; region and school board; classification of students according to their level of instruction: by grade for French-speaking

students and by division for English-speaking students; enrolment figures for students attending summer schools; classification of students according to school certificates or diplomas earned, secondary school subjects studied for diploma purposes, and honour graduation results. Two tables are devoted specifically to the number of children under 18 years of age who have emigrated to Canada and to Ontario.

Admissions from Outside Ontario

Statistics for 1973 show that a total of 38,455 students from outside Ontario were admitted to schools in this province. As many as 6,326 came from Quebec, 4,100 from the United States, and 3,499 from the United Kingdom. About 45 per cent of these students came from other provinces within Canada.

Graduation Diplomas

The number of Secondary School Graduation Diplomas awarded in 1973 was 91,705, compared with 90,335 in 1972. The number of Secondary School *Honour* Graduation Diplomas awarded in 1973 was also higher: 42,238 in 1973, compared with 41,700 in 1972.

French-speaking Students

In 1973, 2,103 French-speaking students were enrolled in 9 public schools and 80,502 in 290 Roman Catholic separate schools. The number of French-speaking students enrolled in secondary schools increased from 29,883 in 1972 to 30,243 in 1973.

Section 4—ELEMENTARY AND SECONDARY SCHOOLS

This section includes detailed tabulations according to the type of board, the county or district, the educational region, the number of teachers employed, the enrolment interval, and the number of teaching areas.

A total of 125 school boards (76 boards of education and 49 Roman Catholic separate school boards) provided elementary and/or secondary school education to about 13,117 of the 2,008,610 students attending school in September 1973. Most of these 13,117 students, many of whom were from remote areas, were enrolled in 7 schools operated by 55 boards of various types.

It would appear that the consolidation of schools is continuing. There were 4,64 elementary and secondary schools in 1973, compared with 4,733 schools in 1972. A comparison of 1973 statistics with those of the previous year reveals that the number of elementary schools with fewer than 100 students dropped from 332 in 1972 to 27 in 1973—a reduction of 62. The median figure for elementary school enrolment fell within the range of 300 to 340 students. The median secondary school enrolment figure is 900 to 999 students. The median elementary school has 12 teaching areas; the median secondary school, 46 teaching areas.

Section 5—PRIVATE SCHOOLS

The number of students enrolled in private schools increased from 44,826 in 1972 to 47,500 in 1973. There were 298 private schools in Ontario in 1973 compared with 282 in 1972.

Section 6—PROVINCIAL SCHOOLS

There are 16 provincial schools operated by the Ministry of Education, four of which are residential schools for the blind and deaf. The Ontario School for the Blind in Brantford, reported an enrolment of 221 students. The Ontario School for the Deaf in Belleville had an enrolment of 405. The Ontario School for the Deaf in Milton and the Regional Centre for the Hearing Handicapped in London reported enrolments of 4 and 194 respectively.

Section 7—FINANCIAL DATA

This section contains statistics relating to the following categories: grants; school building construction; pupil transportation; grants for education and per pupil education costs; revenues and expenditure of school boards; the source and application of capital funds.

General Legislative Grants

These grants, which amounted to approximately \$472 million in 1967, first exceeded the one billion dollar mark in 1971. In 1973, legislative grants to school boards totalled \$246,003,662.

School Building Construction

In 1973, the number of building projects for elementary schools totalled 209, compared with 221 a year earlier. Similarly, building projects for secondary schools were fewer in number in 1973.

Pupil Transportation

The school boards made provisions to transport 558,549 students a total of 555,129 miles per day in the school year 1972-73. Total school board expenditures for transportation in 1972-73 came to \$70,679,568.

Grants for Education and Per Pupil Cost of Elementary

and Secondary Education for the Calendar Year 1972

The average daily enrolment figures on which grants to school boards were based totalled 977,596 for public schools in 1972, compared with 989,031 in 1971. The average daily enrolment in Roman Catholic separate schools increased to 402,051 pupils from 400,467. For the first time, the average daily enrolment in secondary schools declined from 568,663 students in 1971 to 566,054 in 1972. Provincial government grants to public school boards increased from \$366 million in 1971 to \$375 million in 1972. Grants to Roman Catholic separate school boards increased from \$235 million in 1971 to \$263 million in 1972. Secondary school boards received \$38 million in 1972, compared with \$411 million in 1971. The cost in dollars per public school pupil increased from \$766 in 1971 to \$837 in 1972. For Roman Catholic separate school pupils, the increase was from \$730 per pupil in 1971 to \$797 in 1972. The cost per pupil for secondary schools increased from \$1,303 in 1971 to \$1,424 in 1972. Provincial grants (expressed as a percentage of the net expenditures of school boards) totalled 51.93 per cent for boards operating public schools, 83.48 per cent for boards operating Roman Catholic separate schools, and 58.24 per cent for boards operating secondary schools. For all boards operating elementary and secondary schools the grants totalled 59.68 per cent.

Statistical Tables

Section 1—Summary

Table

1.1	Public education in Ontario, September 1973	10
1.21	Provincial population and enrolment in publicly supported elementary and secondary schools, 1969-1973	10
1.22	Provincial population and enrolment in publicly supported elementary and secondary schools by single years of age, 1973	11
1.31	Public school enrolment by grade or year, 1964-1973	12
1.32	Roman Catholic separate school enrolment by grade or year, 1964-1973	12
1.33	Elementary and secondary school enrolment by grade or year, 1954-1973	13
1.4	Estimated progress of students through secondary schools, 1964-1973	15
1.5	Administrative units operating schools, September 1973	15
1.6	Boards operating elementary and/or secondary schools by enrolment interval and type, September 1973	16
1.7	School administrative units, 1955-1973	16
1.8	Modes of organization in elementary schools by level of instruction, September 1973	17

Section 2—Teachers

Table

2.11	Full-time teachers, withdrawals and acquisitions, 1972-1973	18
2.12	Full-time teachers, withdrawals and acquisitions, 1960-1973	19
2.14	Qualifications of full-time teachers, September 1973	20
2.15	Teachers and other specified staff, September 1973	20
2.16	Full-time teachers and principals by years of experience, September 1973	21
2.17	Salary of full-time teachers and principals, September 1973	21
2.31	Enrolment in teacher education institutions—Elementary, 1973-1974	22
2.32	Enrolment in teacher education institutions—Secondary, 1973-1974	24
2.4	Enrolment in teacher education institutions, 1964-65 to 1973-74	25
2.5	Ministry of Education summer courses for teachers, 1964-1973—Enrolment by subject	26
2.6	School-board sponsored winter courses for teachers for Ministry of Education credit, 1970-71, 1971-73—Enrolment by Subject	27
2.7	Professional certificates issued, September 1, 1972 to August 31, 1973	28

Section 3—Students

Table

3.11	Enrolments, transfers, retirements, and admissions, 1972-1973	31
3.12	Students entering from outside Ontario by province or country from which entry is made, September 1973	31
3.211	Elementary school enrolment by sex and grade or year, September 1973	32
3.212	Elementary school enrolment by age and sex, September 1973	32
3.213	Enrolment, by age and sex, in schools for the trainable retarded, September 1973	33
3.221	Secondary school enrolment by year or credits and sex, September 1973	33
3.222	Secondary school enrolment by age and sex, September 1973	33
3.241	Schools, teaching areas, teachers and enrolment by region, board and level of instruction, September 1973	34
3.242	Schools, teaching areas, teachers and enrolment by region, September 1973	47
3.25	Schools, teachers and enrolment in elementary schools attended by French-speaking pupils, 1964-1973	48
3.26	Enrolment of French-speaking students in secondary schools by year and by credits, September 1973	49
3.271	English-speaking elementary school pupils enrolled in French classes by division, September 1973	49
3.3	Attendance at summer schools, 1973	50
3.51	Certificates and Diplomas, 1973	50
3.54	Honour graduation level final results obtained during the 1972-1973 school year	51
3.55	Honour graduation level standing obtained in approved summer schools in 1973	51
3.61	Immigration to Canada of children under 18 years of age by province of intended destination, 1964-1973	52
3.62	Immigration to Canada and Ontario of children under 18 years of age by age group, 1964-1973	52
3.63	Net number of children transferring in or out of each province 1963-1964 to 1972-1973	53

Section 4—Elementary and Secondary Schools

Table

4.11	Schools, teachers and pupils by type of school board, September 1973	54
4.121	Schools, teaching areas, teachers and enrolment by county and district, September 1973	55
4.122	Schools, teaching areas, teachers and enrolment by region, September 1973	59
4.13	Schools, teaching areas, teachers and enrolment by number of teaching areas, September 1973	60
4.14	Schools, teaching areas, teachers and enrolment by number of teachers, September 1973	61
4.15	Schools, teaching areas, teachers and enrolment by enrolment interval, September 1973	62
4.2	Elementary and secondary schools by number of teaching areas, 1964-1973	63

Section 5—Private Schools

Table

5.11	Private school enrolment, transfers, retirements, admissions, 1972-73 ..	64
5.12	Private schools by level of instruction, September 1973	64
5.131	Private school enrolment by grade or year, September 1973	64
5.132	Enrolment in private schools by age and sex, September 1973	65
5.14	Private schools by enrolment interval, September 1973	65
5.15	Private school enrolment by type of school, September 1973	66
5.16	Private school teaching staff, September 1973	66

Section 6—Provincial Schools

Table

6.1	Ontario School for the Blind, Brantford—Enrolment by age and grade, 1973	67
6.21	Ontario School for the Deaf, Belleville—Enrolment by age and grade, 1973	68
6.22	Ontario School for the Deaf, Milton—Enrolment by age and grade, 1973	69
6.23	Regional Centre for the Hearing Handicapped, London—Enrolment by age and level, 1973	70
6.3	Correspondence courses, 1968-1969 to 1972-1973.....	71

Section 7—Financial Data

Table

7.1	Provincial grants to school boards—General Legislative Grants, 1967-1973	72
7.2	School building construction—New schools and additions, 1964-1973	72
7.3	Pupil transportation provided by school boards School year 1972-1973	73
7.41	Grants and per pupil costs of elementary and secondary education, 1972 (Calendar year)	74
7.42	Summary of financial statistics of Ontario school boards, 1972 (Calendar year)	75

Table 1.1 Public education in Ontario, September 1973

	Boards operating schools	Schools in operation	Number of full-time teachers	ENROLMENT

	...	16	506	1,659	1,046
Grand Total ⁵	192 ⁶	4,820	91,841	1,042,240	976,036
					2,018,276

¹ Two Protestant separate school boards are included in this total.

² Net total excludes duplication of 78 boards of education that operate both elementary and secondary schools, two of which are on Crown lands.

³ Sixty-five boards also operate elementary and/or secondary schools. The Metropolitan Toronto School Board, which does not appear elsewhere, operates schools for the Trainable Retarded.

⁴ Six of these boards operate other schools. Eleven boards operate schools only in hospitals, sanatoria, or other treatment centres.

⁵ Four of these schools, those for the blind and deaf, are institutions operated by the Ministry of Education. The remaining twelve are schools managed by the Ministry of Education in institutions operated by the Ministry of Health.

⁶ Net total excludes duplication of those boards that operate more than one type of school. On September 30, 1973, there was a total of 203 boards but eleven boards did not operate schools.

⁷ Private schools are not included in this table. Enrolment in private schools can be found in section 5 of this report.

⁸ The Ministry of Education operates The James Bay Education Centre in Moosonee.

⁹ This total should be used when making comparisons with earlier years in which only elementary and secondary school enrolments were reported.

Table 1.21 Provincial population and publicly supported elementary and secondary school enrolment, 1969-1973

Year	Population of Ontario ¹ ('000)	Age group	Total	Total school enrolment	Enrolment as a % of total population	Elementary ² enrolment as a % of total population	Secondary ² enrolment as a % of total population

¹ Beginning in 1970, enrolment in all secondary school courses was distributed in accordance with a wider definition of grade. Students were reported by grade or by years of schooling beyond kindergarten or by credits or courses completed. In

1972, those with 0-6 credits were reported in grade 9, those with 7-13 credits in grade 10, those with 14-20 credits in grade 11, those with 21-26 credits in grade 12. Candidates registered for honour graduation diploma courses were reported in grade 13.

Grade or year	Reached grade or year 13 in					1967 %	1968 %	1969 %	1970 %	1971 %	1972 ² %	1973 %

Intended to enter university	12	14	14	16	16	16	18	18	18	18	18	18

¹ The above table is based on the September enrolment for the various years. Grades or years 9 and 10 include students in both elementary and secondary schools. The percentages for grades or years 11-13 tend to be conservative.

To take 1973 as an example, some of the students who were in grade of year 9 in 1969 and who proceeded to grade or year 10 in 1970 have left the publicly supported school system and have entered private secondary schools. These students are therefore not included in the percentages shown here for grades or year 11-13.

² The percentages for 1972 have been amended to take account of the wider definition of grade in use since 1970. See note 1, table 1.33. Students who were enrolled in vocational courses in 1968 and 1969 are, for the purpose of this calculation, distributed by years of schooling. At least part of the decrease in percentages between 1971 and 1972 can be attributed to this adjustment.

Table 1.5 Administrative units operating schools, September 1973¹

Boards of education	Roman Catholic combined separate school boards			Other boards			Grand total
	County	District	Cities and boroughs	Public school	Boards of education—Crown lands, hydro, etc. ²	Roman Catholic separate school	
	38	28	10	28	18	3	28
				30	11	12	53
						2	2
Total	76			49	55	180	

¹ For further details regarding enrolment by type of board, see Table 4.11.

² Two of these boards operate both public and secondary schools. The other 9 operate public schools only.

Table 1.6 Boards operating elementary and/or secondary schools by enrolment interval and type, September 1973

10,000-19,999	17	-	7	-	-	-	24
20,000-49,999	20	-	3	-	-	-	23
50,000-Over	7	-	1	-	-	-	8
Total	76	32	61	9	-	2	180⁴

¹ All of these boards operate both elementary and secondary schools. There are no longer any school boards operating only secondary schools.

² Included in this total are two Protestant separate school boards.

³ Of the 11 boards of education on Crown lands, 9 operate only elementary schools.

⁴ This total includes only boards that are operating schools.

¹ Each month the Family Allowance Division, Department of National Health & Welfare, reports the number of families transferring accounts into and out of each province. Statistics Canada prepares an annual summary of the numbers of families. It then estimates the number of children by multiplying the number of families by the average size of family. From 1964-65 to 1969-70 inclusive, the average size of family in the province from which the students came was used. For all other years, the multiplier was the average size of a family in Canada as a whole.

[illegible]

to 1970, the total number of teaching areas was supplied by each principal. In 1971, 1972 and 1973 the number of teaching areas was computed from a detailed inventory supplied by the principal.

Table 5.11 Private school enrolment, transfers, retirements, admission, 1972-73

Enrolment on the last school day in September 1972	44,826	Admissions since the last school day in September 1972	
Transfers since the last day of September 1972 to another private school	2,749	Beginners — pupils whose names were entered on the roll of a school for the first time	2,25
Retirements since the last school day in September 1972		Pupils enrolled previously in another private school in Ontario	2,91
To publicly supported schools	4,579	Pupils entering from publicly supported schools	11,12
To other training or education	5,480	Pupils re-entering after a period of non-attendance at any school	11
Left Ontario	1,027	Pupils from outside Ontario	1,99
Ceased to attend any school	1,853		
Death, disability, marriage, other	128		
Total, retirements	13,067		
Total, retirements and transfers	15,816	Total, admissions	18,4
Total enrolment on the last school day in September 1973	47,500

¹ For 1967-69 additional payment, in the amounts of \$92,024,748, \$48,179,321 and \$20,913,105 respectively was made for the construction and equipping of vocational accommodation under the terms of agreements between the Government of Canada and the Government of the Province of Ontario. Other payments totalling \$1,846,968, \$18,726,971, \$37,399,451, \$53,852,391, \$51,112,265, \$22,343,437 and \$4,178,154 respectively were made by the Province in the 1967, 1968, 1969, 1970, 1971, 1972 and 1973 calendar years to compensate for the phasing out of participation by the Government of Canada in this area.

² Excludes payments by the Province to school boards for services rendered, such as for the education of pupils from certain unorganized areas and the use of schools for practice teaching.

Education Statistics

ario, 1974

duction

Education Statistics, Ontario, 1974 is the second issue of a separate volume of statistics on primary and secondary education in this province. Prior to 1973, such statistics appeared in the *Annual Report of the Minister of Education*. The 1974 version of *Education Statistics* has been reorganized to make it more systematic and inclusive in its coverage of Ontario education. It contains 78 statistical tables derived largely from the following sources: the September reports of school boards; educational staff records; and 1971 census returns. The tables are grouped into nine sections. The first section gives an overview of public education in Ontario. The other sections contain information on the following: educational indicators; demographic factors; teachers; certificates and diplomas; administrative units; finance; and private schools. Maps and charts have been included to illustrate some of the data.

In Table 1.00, the first statistical table in this publication, publicly supported elementary education in Ontario is provided in public schools operated by public school boards or in Roman Catholic separate schools operated by Roman Catholic separate boards. (The term *elementary* is commonly used to include both public and Roman Catholic separate schools.) Publicly supported secondary school education is provided in secondary schools operated by boards of education. Since many of the tables, like Table 1.00, include data from all above-mentioned types of schools, no attempt has been made to index every reference to Roman Catholic separate, elementary, or secondary. It was felt that the repetition of such references would make the index too cumbersome.

Section 1—Summary

This section presents some salient features of public education in Ontario.

School boards

On September 30, 1974, there were 190 boards operating schools in Ontario. (This net total does not include boards operating *more than one* type of school.) The corresponding figures for September 30, 1973 were 194 and 192 respectively.

Of the 190 boards operating schools in 1974, 118 operated public schools; 78 of the 118 operated secondary schools; 65 of the 78 operated schools for the trainable retarded; 60 operated Roman Catholic separate schools; the Metro School Board operated schools for the trainable retarded only; 11 operated schools in hospitals, sanatoria, or other treatment centres.

On September 30, 1974 there were 2 685 public schools and 1 320 Roman Catholic separate schools, or a total of 4 005 elementary schools. There were 611 secondary schools. The corresponding figures for September 30, 1973 were 2 718, 1 320, and 611 respectively. This shows that the number of Roman Catholic separate and secondary schools increased while the number of public schools decreased.

As can be seen in Table 4.20 the median enrolment for public schools was in the class interval 200-249, and for Roman Catholic separate schools, 250-299. For secondary schools the median enrolment was in the 1000-1099 interval. The median enrolment figures for 1973 for public, Roman Catholic separate, and secondary schools, were 300-349, 250-299, and 900-999 respectively. There were 145 schools for the trainable retarded, 16 schools in medical settings, and 16 special schools. Altogether, then, there were 4 793 schools in 1974, or 27 fewer than in 1973.

Enrolment

On September 30, 1974, 977 545 pupils were enrolled in public schools and 427 294 in Roman Catholic separate schools, or a total of 1 404 839 pupils in elementary schools—18 046 fewer than in 1973. The decline in elementary school enrolment applied only to public schools. Enrolment in Roman Catholic separate schools increased. The figure for secondary school enrolment for 1974 was 965 032. Thus, there were 14 121 fewer students enrolled in elementary and secondary schools in 1974 than in 1973. Schools for the trainable retarded had an enrolment of 6 839; schools in a medical setting, 532. Provincial schools had an enrolment of 2 584. The number of students enrolled in Ontario schools in 1974, then, totalled 2 004 444, or 13 832 fewer than in 1973.

Correspondence courses

The number of students who took correspondence courses in 1973-74 was 269 885. This represents a decline of 1 601 students in one year. In fact, the totals show a continuing decline, from 271 486 in 1969-70 to 269 885 in 1973-74.

Grants and per-pupil cost of elementary and secondary education for the calendar year 1973
Provincial government grants increased from \$424.6 million in 1972 to \$438.6 million in 1973 for public schools; from \$262.7 million to \$278.7 million for Roman Catholic separate schools; from \$687.4 million to \$717.2 million for elementary schools. For secondary schools the corresponding increase was from \$467.8 million to \$492.7 million.

In the 1973 calendar year, provincial grants made to boards covered the following percentages of their net expenditures. 52.38% for public schools, 85.12% for Roman Catholic separate schools, and 61.59% for elementary schools. For secondary schools the corresponding figure was 55.2%. Thus, provincial grants covered 60.52% of the net expenditures of the province's schools.

In accordance with recent practice, provincial grants were indexed to average daily enrolment figures. Between the 1972 and 1973 calendar years the average daily enrolment in public schools declined by 17 892, from 977 596 to 959 704. For Roman Catholic separate schools the corresponding figures for 1972 and 1973 were roughly the same: 402 051 and 402 258, respectively. In elementary schools, the average daily enrolment decreased by 17 685, from 1 379 647 to 1 361 962. In secondary schools the enrolment increased by 4 952, from 566 054 to 571 006.

The net day-school expenditure per pupil increased from \$837 to \$885 for public schools; from \$797 to \$857 for Roman Catholic separate schools; and from \$826 to \$877 for elementary schools. For secondary schools it increased from \$1 424 to \$1 479. Provincial grants per pupil for public, Roman Catholic separate, and elementary schools increased from \$434 to \$457, from \$527 to \$693, and from \$498 to \$527 respectively. At the secondary school level the grants per pupil increased from \$826 to \$863.

Section 2—Educational indicators

This section indicates the educational attainment of the Ontario population.

Tables 2.00 and 2.10 record the progress of students from Years 1 to 8 and 9 to 13 in publicly supported and private schools from 1971 to 1974. As shown in the tables, there were 147 356 students enrolled in Grade 9 (public and private) in 1969; 137 468 were enrolled in Grade 10 in 1970; 124 810 were enrolled in Grade 11 in 1971; 107 540 in Grade 12 in 1972; and 94 710 in Grade 13 in 1973. Ultimately, 40 710 students qualified for Honour Graduation diplomas in 1974.

Table 2.20 records the 1971 census figures regarding the highest level of education attained by Ontario residents aged 25 and over. The percentage distribution of the population into different educational groups clearly indicates the following:

- i) the higher the age group, the greater the percentage of people who have no more than elementary-level schooling;
- ii) the lower the age group, the higher the percentage of people who completed a secondary or university education.

These trends show that the 25-34 age group has attained a higher educational level than the 65 and over age groups.

Section 3—Demographics

This section provides some demographic data relevant to Ontario education. The data indicate the influences of births, migration, and immigration on school enrolment in Ontario.

Births, population and enrolment

One striking example of the influence of births on enrolment is provided in Table 3.30 and the graph accompanying it. The number of live births less infant deaths is highly correlated with enrolment figures six years later, giving a product moment correlation of 0.9961. Table 3.05 provides some vital statistics for Ontario for 1957-1973. Table 3.05 indicates elementary school enrolment figures for the 4-13 age group and secondary school enrolment figures for the 14-19 age group as percentages of the total Ontario population in the same age groups for 1970-1974. 94.7% of the population in the 4-13 age group was in elementary school, and 75.2% of the population in the 14-18 age group was in secondary school. Table 3.06 gives the estimated 1974, of the Ontario population aged 3-22, and provides the enrolment figures, by single year of age, for students in both publicly supported and private schools.

ion to Ontario

1 shows that 37 248 immigrants under 19 years of age came to Ontario in 1974. Table 3.19 is a historical table that indicates the intended destination by province and territory of all ages who immigrated to Canada. In 1974, Ontario was the intended destination of 19 115 immigrants: approximately 55% of the total number of immigrants to Canada that

inial migration

1 shows the net monthly figures for 1974 of children migrating to and from the various provinces and territories of Canada. Table 3.20 is an historical table of a similar nature.

from outside Ontario

onal and interprovincial migration greatly affect the Ontario school population. Table 3.21 shows that, in 1974, 36 302 elementary school pupils and 8 851 secondary school pupils, or a total of 45 153 pupils, came to Ontario from outside the province. The greatest number from provincial sources – 3 918 elementary pupils and 1 511 secondary pupils – migrated from the next largest group – 2 168 and 1 602 elementary pupils and 511 and 424 secondary pupils respectively – from British Columbia and Nova Scotia; as many as 1 407 elementary pupils and 511 secondary pupils, from Alberta. In addition, 23 485 elementary school pupils and 5 201 secondary school pupils came from other countries.

4 – Students

The largest section of the publication and contains 21 statistical tables that provide information on student enrolment according to such categories as school, grade, age, sex, level of instructional language instruction, and attendance at summer schools.

Following figures indicate the percentage distribution of male and female pupils in Ontario schools as of September 1974.

System	Male (%)	Female (%)
Public	51.7	48.3
Catholic separate	51.1	48.9
Protestant	51.5	48.5
Other	51.8	48.2

Tables 4.30, 4.31, and 4.32 give enrolment figures by single years of age and by sex for elementary schools for the trainable retarded, and secondary schools respectively. Tables 4.40, 4.41, and 4.43 show age-grade distribution of enrolment in four provincial schools operated by the Ministry of Education.

French language instruction

Table 4.50 indicates the number of schools, full-time teachers, and French-speaking elementary pupils by grade for the period 1965-1974. In 1974 there were 2 418 French-speaking pupils in public schools and 77 764 pupils in Roman Catholic separate schools, or a total of 79 182 French-speaking elementary pupils. Table 4.51 provides enrolment figures by year and by number of credits for French-speaking secondary pupils. In 1974, for example, there were 30 906 French-speaking pupils enrolled in secondary schools. Tables 4.52 and 4.53 indicate the number of English-speaking pupils enrolled in elementary French classes by division and in secondary French classes by year. In 1974, for instance, there were 613 142 English-speaking pupils enrolled in elementary French classes and 192 440 English-speaking pupils enrolled in secondary French classes. Tables 4.54 and 4.55 outline the age and sex distribution of students enrolled in French-speaking elementary and secondary schools respectively. The reader should note that Table 4.55 includes French-speaking pupils enrolled in mixed secondary schools.

Attendance at summer school

Table 4.60 indicates summer school attendance for 1974. There were 1 769 pupils enrolled in Honours Graduation courses in new learning, an increase of 301 from 1973. The number of pupils doing Honour Graduation make-up work decreased from 1 594 in 1973 to 1 343 in 1974.

Teachers – Teachers

Table 4.61 contains statistical information regarding teachers in Ontario such as the following:

the number of teachers who withdrew or were hired, the number of full-time teachers employed, the distribution of teachers by age, sex, salary, teaching experience, academic or professional qualifications, degrees (including highest degree obtained), and major activity or occupation last school year. The section also contains enrolment figures for the following: for teacher education institutions for 1974 as well as for the period 1965 to 1974; for Ministry of Education summer courses for the period 1965 to 1974; and for school-board-sponsored winter courses for Ministry of Education credit for the period 1970-1974.

Withdrawal and acquisition

Table 5.00 shows that 7 375 elementary school teachers and 2 781 secondary school teachers left the teaching profession during 1973-74. Resumption of household duties by women teachers was the single most important reason for teachers withdrawing from the profession at the elementary level - accounting for 2 664 teachers. At the secondary level, the most important causes were movement to a field outside education - 548 teachers - and resumption of household duties - 519 women teachers. Some of the other major reasons for teachers leaving are as follows: retirement - 876 elementary school teachers and 291 secondary school teachers; withdrawal from part-time teaching - 553 and 203 respectively; withdrawal to teaching positions outside Ontario - 313 and 172 respectively; taking up supervisory, administrative or consultative positions in education - 422 and 175 respectively; enrolment in teachers' colleges, universities, or other educational institutions - 464 and 227 respectively; death - 44 and 53 respectively.

During 1973-74, elementary schools hired 7 423 teachers, and secondary schools, 3 123. Withdrawals and acquisitions resulted in a net loss of 55 teachers from the public schools, a gain of 12 teachers for Roman Catholic separate schools, and a gain of 342 teachers for secondary schools.

As of September 30, 1974 there were 39 748 teachers in public schools, 16 930 teachers in Roman Catholic separate schools, and 34 231 teachers in secondary schools.

Table 5.01 provides figures regarding withdrawal and acquisition and indicates the corresponding gains and losses and the total number of teachers for the period 1965 to 1974.

Full-time equivalent of part-time teachers and other school staff

Table 5.20 provides the number of full-time equivalents of part-time teachers, teacher aides, and other non-teaching school personnel. Part-time teachers provided services equivalent to those of 4 424 full-time teachers in elementary schools and 563 full-time teachers in secondary schools.

Age and experience of full-time teachers

Table 5.40 shows the age distribution of teachers. The most probable age interval for elementary school teachers is 20-29 years and, for secondary school teachers, 30-39 years. Male teachers tend to be older. Among elementary school teachers, the median age was 30.4 years for males and 29.1 years for females. For secondary school teachers the median age was 35.3 years for males and 33.1 years for females.

Table 5.42 indicates the number of years of teaching experience of full-time teachers in 1973-74. The most probable number of years of teaching experience for elementary and secondary school teachers is 1-10 years. The median number of years of teaching experience for male elementary school teachers was 8.1 and 7.6 years respectively. For secondary school teachers it was 8.2 years for males and 7.0 years for females.

Qualification of full-time teachers

Table 5.43 indicates the number of years of academic or professional education teachers have beyond the Grade 12 or Year-4 level. Most elementary school teachers have at least two years of education beyond Grade 12. Most secondary school teachers have at least five years of education beyond Grade 12 (including one year for a teaching certificate), which is equivalent to a bachelor's degree in Ontario. The median number of years of education beyond Grade 12 is 4.6 for male elementary school teachers and 2.8 for female elementary school teachers. Likewise, the median figures for male and female secondary school teachers are 5.5 and 5.2 respectively.

Table 5.44 indicates the degrees (including the highest degree) held by Ontario teachers. The bachelor's degree was the highest degree held by 51.7% of male elementary school teachers, 23.6% of female elementary school teachers; 67.7% of male secondary school teachers and 78.1% of female secondary school teachers had the same degree. The master's degree was the highest degree held by 13.9% of male secondary school teachers and 8.4% of female secondary school teachers. A number of teachers did not report their degrees: 37.2% of male elementary school teachers and 74.8% of female elementary school teachers; 18% of male secondary school teachers and 11.5% of female secondary school teachers.

% of female secondary school teachers. It was assumed that teachers who failed to report did not possess degrees.

of full-time teachers

41 gives the salary distribution of teachers. There was a greater percentage of male than female teachers in the higher salary intervals. The median salary for male elementary was \$11 501; for female elementary teachers, \$9 292. For male and female secondary teachers, median salaries were \$14 414 and \$12 251 respectively. Although men and women enjoy the same salary scales the higher median age and greater degree of teaching experience or academic or professional education of male teachers were among the factors contributing to higher median salary.

some disparity in salary between public and separate school teachers. Male public school have a median salary of \$11 862 while male separate school teachers have a median salary of \$14 473. Female teachers in public and separate schools have median salaries of \$9 501 and \$12 251 respectively.

activity or occupation last school year of full-time teachers

per cent of all elementary school teachers and 92.5% of all secondary school teachers last school year for the same board for which they are presently working. This shows a retention rate for teachers by boards.

enrolment in teacher education institutions

5.50, 5.51, 5.52, and 5.53 provide enrolment figures for teacher education institutions for elementary and for school years for the period 1965 to 1974. In 1974-75, 2 229 students enrolled in elementary school teacher education programs, an increase from the previous year's figure of 1 780. Enrolment in secondary school teacher education programs increased from 3 036 in 1973-74 to 3 511 in 1974-75.

Chapter 6 – Certificates and diplomas

This chapter deals with certificates and diplomas awarded to pupils and teachers in 1974.

Certificates and diplomas for pupils

A total of 91 851 Secondary School Graduation diplomas were awarded: 85 164 to pupils in publicly supported secondary schools and 6 687 to pupils in private schools. A total of 40 710 Secondary School Honour Graduation diplomas were awarded: 36 124 to pupils in publicly supported schools and 4 586 to pupils in private schools. While the number of Secondary School Graduation diplomas increased somewhat, from 91 705 in 1973 to 91 851 in 1974, the number of Secondary School Honour Graduation diplomas declined substantially, from 42 238 to 40 710.

First certificates

The number of intramural first certificates awarded for elementary school teaching declined drastically from 3 068 in 1973 to 1 811 in 1974. A possible explanation for this decline is that 1 359 students enrolled in elementary school teacher education programs in 1973-74 than in the previous year. Similarly fewer certificates were awarded for secondary school teaching – 2 889 in 1974 compared to 2 922 in 1973. There were also fewer first certificates awarded at both the elementary and secondary levels – for extramural study 366 and 156 respectively compared to the previous year's figures of 455 and 256. The number of permanent certificates awarded for elementary school teaching declined from 4 716 in 1973 to 4 126 in 1974. The number of permanent certificates of all kinds for secondary school teaching also declined from 9 362 in 1973 to 8 907 in 1974, 80 letters of permission and 29 letters of approval were issued, compared to 69 and 25 respectively, in 1973.

Chapter 7 – Administrative units

This section contains educational data arranged according to various administrative units: schools; school areas; teachers; enrolment by region, by board type, by board within region, by county or district. It also tabulates the modes of organization of elementary schools.

Chapter 8 – Finance

This section contains data pertaining to grants, capital investment in the construction of school buildings, student transportation, the revenue and expenditures of school boards, sources and uses of capital funds.

General legislative grants

General legislative grants have progressively increased from \$552.8 million in 1968 to \$1.01 billion in 1971 to \$1.353 billion in 1974.

School building construction

There were 110 elementary school construction projects in 1974-75 at a total cost of \$57.7 million at the tender stage, compared to 226 projects in 1973-74 at a cost of \$80.7 million. There were 3 secondary school construction projects in 1974-75 at a cost of \$35.8 million at the tender stage whereas there were 64 such projects in 1973-74 at a cost of \$48.6 million.

Pupil Transportation

The total cost incurred by school boards in 1973-74 for the transportation of 592 026 pupils, at an average of 0.96 miles per day per pupil, was \$73.9 million.

Section 9 — Private schools

There were 316 private schools in 1974, compared to 298 in 1973. The number of pupils enrolled in private schools increased from 47 500 in 1973 to 51 440 in 1974. Table 9.21 indicates enrolment figures for 1967 to 1974 for all grades in the private schools.

Grand Total⁷	190⁶	4,793	92,298	1,034,582	969,862	2,004,444

¹ Two Protestant separate school boards are included in this total.

² Net total excludes duplication of 78 boards of education that operate both elementary and secondary schools, two of which are on Crown lands.

³ Sixty-five boards also operate elementary and/or secondary schools. The Metropolitan Toronto School Board, which does not appear elsewhere, operates schools for the Tramable Retarded.

⁴ Five of these boards operate other schools. Eleven boards operate schools only in hospitals, sanatoria, or other treatment centres.

⁵ Four of these schools, those for the blind and deaf, are institutions operated by the Ministry of Education. The remaining twelve are schools

managed by the Ministry of Education in institutions operated by the Ministry of Community and Social Services.

⁶ Net total excludes duplication of those boards that operate more than one type of school. On September 30, 1974, there was a total of 198 boards but eight boards did not operate schools.

⁷ Private schools are not included in this table. Enrolment in private schools can be found in section 9 of this report.

⁸ The Ministry of Education operates The James Bay Education Centre in Moosonee.

⁹ This total should be used when making comparisons with earlier years in which only elementary and secondary school enrolments were reported.

(1966)	155,589 (93)	(1967) 159,284 (93)	(1968) 162,265 (93)	(1969) 162,801 (93)
(1967)	152,273 (91)	(1968) 155,296 (91)	(1969) 159,596 (91)	(1970) 160,193 (91)
(1968)	153,546 (92)	(1969) 157,488 (92)	(1970) 160,676 (92)	(1971) 160,481 (91)
(1969)	154,758 (93)	(1970) 157,049 (92)	(1971) 160,282 (91)	(1972) 160,355 (91)
(1970)	155,900 (93)	(1971) 158,671 (93)	(1972) 161,151 (92)	(1973) 161,193 (92)
(1971)	151,962 (91)	(1972) 153,876 (90)	(1973) 156,509 (89)	(1974) 160,368 (91)

ment in special education classes has been excluded in all but grade 8 for 1974. The figures in parenthesis (below the enrolments) are percentages of the corresponding grade 1 enrolments in both public and private schools. The grade enrolments used in the calculations are yearly counts unadjusted for movements into and out of the system. The progress of students through grades 1–8 in publicly supported schools only may be summarized as follows:

1971–	100	95	93	91	92	93	93	91
1972–	100	95	93	91	92	92	92	89
1973–	100	95	92	91	91	91	91	89
1974–	100	95	93	91	91	91	91	91

e 2.10 Progress of students through grades 9–13 (publicly supported & private), 1971-1974¹

or	Grade or year 13 in			
	1971	1972	1973	1974
(1967)	138,077 (100)	(1968) 143,542 (100)	(1969) 147,356 (100)	(1970) 149,017 (100)
(1968)	127,810 (93)	(1969) 132,715 (92)	(1970) 137,468 (93)	(1971) 142,133 (95)
(1969)	113,583 (82)	(1970) 120,371 (84)	(1971) 124,810 (85)	(1972) 128,935 (87)
(1970)	104,894 (76)	(1971) 107,304 (75)	(1972) 107,540 (73)	(1973) 107,218 (72)
(1971)	56,637 (41)	(1972) 55,609 (39)	(1973) 55,173 (37)	(1974) 56,396 (38)
Graduation	41,700 (30)	42,238 (29)	40,710 (28)	— —

ment in vocational courses is excluded. The figures shown in parenthesis (below the enrolments) are percentages of the corresponding grade 9 enrolments in both public and private schools. The grade enrolments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through grades 9–13 in public schools only may be summarized as follows:

1971 -	100	93	78	72	38	27
1972 -	100	92	80	71	36	27
1973 -	100	93	81	69	34	25
1974 -	100	95	83	68	35	—

¹ Unpublished data supplied by Department of Manpower and Immigration, Ottawa. Figures although accurate, differ slightly from those previously published.

² Computed from year of birth.

³ Figures for these years are slightly inflated by individuals who have previously entered Canada without Landed Immigrant status but who applied between August and October 1973 for Landed Immigrant status under the "Adjustment of Status Program" administered by the Department of Manpower and Immigration, Ontario (Canada) total immigrants, all ages, under this program as of December 28, 1973 and December 27, 1974 were 6,716 (15,505) and 4,727 (10,686) respectively. Of these figures some represent dependants not in the country of those making application. It is felt that a significantly large percentage of the 1974 figures represent dependants.

¹ Until January 1974 the Family Allowance Division, Department of National Health and Welfare, issued monthly reports on the number of families transferring accounts into and out of each province and the two territories. Statistics Canada then prepared an annual summary of the number of families by the average size of family. It then estimated the number of children by multiplying the number of families by the average size of family.

From 1964-65 to 1972-73 inclusive, with the exception of 1970-71, where the average size of family for Canada was used, the average size of family in the province from which the families came was used. Prior to 1964-65 the average family size in Canada was the multiplier.

Since January 1974, the Department of Health and Welfare reports the actual number of children moving. Statistics Canada began to transmit these figures as of February 1974.

For the earlier part of the reporting period, July 1973 to January 1974, the "averages per family recorded since February 1974 has been used to estimate the number of children moving". The 1973-74 data is not strictly comparable with the earlier data. For further explanation see Interprovincial Movement of Children in Canada, 1973-74, Statistics Canada, catalogue number 81-216.

¹ For October to December 1973, the Family Allowance Division of National Health and Welfare reports the number of families transferring accounts into and out of each province. In January 1974 the method of reporting by the Department changed to give actual number of children moving. Since the change over was in January, Statistics Canada estimated the number of children moving for each month, October to January inclusive based on averages per family recorded since February 1974 and commenced reporting actual number of children in February. Consequently, the period of October 1973 to September 1974 is a mixture of estimates and actuals.

² The monthly data will permit individuals to observe a pattern of movement during a twelve month cycle. It is felt that an October to September cycle is more appropriate for comparison as it corresponds to the reporting cycle of the September report received from schools.

³ The numbers reported for each month refer to when the transfers of Family Allowance records were recorded and NOT necessarily when those families moved. In the majority of cases there is at least a one month lag and often the lag approaches two months. As a result, figures reported by months and even to some extent, by years should be viewed with these lags in mind.

¹ Beginning in 1970, enrolment in all secondary school courses was distributed in accordance with a wider definition of grade. Students were reported by grade or by years of schooling beyond kindergarten or by credits or courses completed. In 1972, those with 0-6 credits were reported in grade 9, those with 7-13 credits in grade 10, those with 14-20 credits in grade 11, those with 21-26 credits in grade 12. Candidates registered for honour graduation diploma courses were reported in grade 13.

and 1969 additional payment, in the amounts of \$48,179,321 and \$20,913,105
 was made for the construction and equipping of vocational accommodation under
 of agreements between the Government of Canada and the Government of the
 of Ontario. Other payments totalling \$18,726,971, \$37,399,451, \$53,852,391,
 265, \$22,343,437, \$4,178,154 and \$777,055 respectively were made by the Province
 68, 1969, 1970, 1971, 1972, 1973 and 1974 calendar years to compensate for the
 ut of participation by the Government of Canada in this area. Vocational grant pay-
 minated March 31, 1974. During 1974, new programs were introduced which resulted
 nt of \$1,470,000 re. French Language Instruction and \$10,677 re. the Municipality of
 Act.

payments by the Province to school boards for services rendered, such as for the
 of pupils from certain unorganized areas and the use of schools for practice teaching.

Table of Contents

Introduction

Statistical Tables

Section 1 – Summary

Table

1.00	Public education in Ontario, September 1975
1.10	Administrative units operating schools, September 1975
1.20	Correspondence courses report for 1970-71 to 1974-75
1.30	Grants and per pupil costs of elementary and secondary education, 1974 (calendar year)

Section 2 – Educational Indicators

Table

2.00	Progress of students through grades 1-8 (publicly supported and private), 1971-1975
2.10	Progress of students through grades 9-13 (publicly supported and private) and first year of university, 1972-1975

Section 3 – Demographics

Table

3.00	Vital statistics, Ontario, 1957-1974
3.05	Comparison of Ontario population and publicly supported elementary and secondary school enrolment by selected age groups, 1970-1975
3.06	Population of Ontario and enrolment in publicly supported and private schools by single years of age, 1975
3.08	Number of elementary and secondary students who entered Ontario, by province from which entry is made, and sub-total from other countries, September 1975
3.09 (new)	Students enrolled in Ontario elementary and secondary schools as of September 30, who entered Ontario, by province from which entry is made, and sub-total from other countries, 1973-1975
3.10	Immigration to Canada of children under 18 years of age by province of intended destination, 1965-1975
3.11	Immigration to Ontario of children under 19 by age groups and single years of age, 1968-1975
3.12	Province of intended destination of immigrants, all ages, 1966-1975 (calendar year)
3.14 (new)	Number of immigrants, 0-18 years of age by selected locations in Ontario as their intended destinations, 1975 calendar year
3.20	Net number of children transferring in or out of each province, 1965-66 to 1974-75
3.21	Number of children transferring in or out of each province, October 1974 to September 1975
3.30	Live births less infant deaths 1957-1969 with publicly supported grade one enrolment six years later, 1963-1975

Section 4 – Students

Table

4.00	Enrolments, transfers, retirements and admissions, 1974-1975
4.10	Elementary school enrolment by division, year and sex, September 1975
4.11	Secondary school enrolment by division, year and sex, September 1975
4.12(a)	Enrolment in public schools, 1955-1975
4.12(b)	Schools, full-time teachers, enrolment and 'selected indicators' in public schools, 1955-1975
4.13(a)	Enrolment in Roman Catholic separate schools, 1955-1975

roduction

tion Statistics, Ontario, 1975 is the third issue of a separate volume of provincial elementary and secondary education statistics. Prior to 1973, many of the tables were published in the *Report of the Minister of Education*. This year's publication has 86 tables and 7 graphs. There are 13 new tables, 10 of which are in the student section. A list of deletions is given before the Index. In addition, several of the existing tables have been either rearranged or had previously unpublished data added to them. Most of the data used come from the September reports of school principals.

Table 1.00 gives the official figures for publicly supported education in Ontario. It should be noted that both public and Roman Catholic separate schools are included under *elementary*.

Section 1 – Summary

Four tables in this section form a compendium of publicly supported elementary and secondary education in Ontario. Table 1.00 is a summary of the numbers of boards, schools, teachers, and pupils as of September 30, 1975. The total number of pupils is 2 004 610. Excluded from this total are the 54 640 pupils at private schools, the 7 352 pupils at federal schools in Ontario, and the pupils at Indian band schools. The federal and Indian band schools are not reported elsewhere in this publication but section 9 gives further details concerning private schools. Table 1.20 gives information on the numbers of students taking correspondence courses at the elementary and secondary levels. Table 1.10 is a summary of administrative units operating schools, that is, operating schools. Table 1.30 reports on average daily enrolments, net day school expenditure in total and per pupil, and provincial government grants in total and per pupil.

Section 2 – Educational indicators

Two tables in this section indicate the progress of students through Grades 1 to 8 and 9 to 13 respectively. To illustrate, of every 100 children who entered grade 1 in 1968, 90 entered grade 8 in 1974 (Table 2.00). Such estimates may be biased by demographic factors – migration, morbidity, and mortality. If more people of school age entered Ontario than left, then migration would increase the estimate while morbidity and mortality would decrease the estimate. These estimates assume a constant rate of progress through the school system which, on an individual basis, is not necessarily true. Nevertheless, these tables are considered to be realistic estimates when read in conjunction with the reservations given in the footnotes.

Year Ontario university enrolment figures are included in Table 2.10. It should be remembered that these enrolment figures include some students who have received their secondary education at an earlier time. Some individuals enrolled in Ontario universities either obtained their education from night school or private study or came from other provinces or countries. However, most of the enrolment comes directly from Ontario public secondary schools, and the figures in Table 2.10 may be used as benchmarks.

Section 3 – Demographics

Students enrolled in elementary or secondary schools in Ontario are usually in the 3-22 age group. This sub-component of the general population is particularly influenced by demographic factors (births, deaths, and migration).

There are twelve tables in this section. Of these, one deals with vital statistics, and one deals with the relationship between live births and publicly supported grade 1 enrolment six years later. Two deal with educational participation rates by age, and the remaining eight deal with migration.

In Ontario there were 124 229 live births in 1974. This represents a slight increase over the 1973 figure. This has occurred in spite of a decline in the general fertility rate, that is, the live births per 1000 women aged 15-49. An increase of 57 400 women (Table 3.00) of child-bearing age in 1974, has offset the decline in the birth rate.

With regard to interprovincial migration, Ontario had a net loss of 10 012 children, age 0-17, to other provinces between July 1974 and June 1975. In the same period the province had a net gain

of about 30 200¹ children of the same age from other countries. Consequently, the net migration is about 20 100. It may be of interest to note that more than half of the children come to Canada as immigrants come to Ontario (Table 3.10).

Section 4 – Students

Total elementary enrolment in 1975 stood at 1 389 478, a decline of 15 361 from the 1974 figure. The public school enrolment decreased by 15 920 to 961 625. The Roman Catholic separate school enrolment rose by 559 to 427 853.

The elementary enrolment peaked in 1970 with a total of 1 465 488. Since then it has been decreasing. The major reason for this reduction in enrolment is the decline in births that began in the mid-sixties. The two years that saw increases in births – 1969 and 1970 – are just not enough to reverse the impact, but these increases are not sufficient to reverse the downward trend.

Secondary enrolment in 1975 was 605 160, a dramatic increase of 15 510 over the previous year. Such an increase has not been observed since 1971 when the enrolment increased by 17 607.

The 1975 increase in secondary enrolment has been distributed by year and sex as shown in Table 4.49.

Year	Male	Female	Total
1	326	903	1 129
2	1 612	878	2 490
3	1 984	2 167	4 151
4	2 332	2 241	4 573
5	1 506	1 561	3 067
Total	7 760	7 750	15 510

An examination of the age distribution of the increase in secondary enrolment (Table 4.50 and 1974) shows that the largest gains occurred in the 14-18 age group. The number of 14- and 20-year-olds actually decreased.

The changes from 1974 to 1975 in the tables dealing with French are interesting. Elementary enrolment in French language schools (Table 4.50) has declined by 2 758 from 80 182 in 1974 to 77 424 in 1975. However, enrolment of English speaking elementary students in French rose by 38 467 from 613 142 in 1974 to 651 609 in 1975 (Table 4.52). When one turns to secondary enrolment both language groups have shown increases (Table 4.51 and 4.53).

Turning to student dropouts and re-entrants in secondary schools (Tables 4.92 to 4.95), 65 223 dropouts and 12 776 re-entrants from September 1, 1974 to September 30, 1975. A dropout is defined as a student who leaves the Ontario publicly supported secondary school system without successfully completing a certificate or diploma program in which he/she was enrolled. It should also be noted that re-entrants may have dropped out during the previous years. Thus direct comparison between the dropout and re-entrant tables should be made with care in mind. It is interesting to note that while only 5 217 females re-entered secondary schools compared with 7 559 males, only 27 556 females compared to 37 667 males dropped out.

Section 5 – Teachers

This section gives the following information on teachers: withdrawals and acquisitions by year and historical, part-time teachers and other specified staff, number of schools by teacher teaching experience and positions of teaching staff, and enrolment of teachers by institution and courses.

In 1975 there were 58 167 full-time teachers in elementary schools, an increase of 595 from 57 572 in 1974 figure. In secondary schools there were 34 826 full-time teachers (Table 5.01), 1 400 more than those for 1974. The ratio of the number of students to the number of full-time teachers ("crude" pupil/teacher ratio) was 23.9 for elementary schools and 17.4 for secondary schools.

¹ Interprovincial and international migration of children in Canada, 1974-75, Catalogue 90-81-216, *Statistics Canada*, Table 2, p. 22.

5.30 indicates that for September 1975 there were 5 elementary schools with no full-time teachers, 30 with only one and only 2 with 63 and 69 teachers respectively. All other elementary schools have full-time complements lying between these extremes. For secondary schools there are 15 schools with no full-time teachers, 4 with one and 32 with over 100 teachers. Therefore, there are 175 schools with their teacher complement lying between one and 100 full-time teachers.

5.42 and 5.45 give the distribution of teachers by years of experience and by position. The number of teachers in public, Roman Catholic separate and secondary schools have between 10 years of experience. The median, the point in the distribution which divides the total into two equal parts, is also in this interval. Turning to the distribution of teaching positions in public, Roman Catholic separate and secondary schools, the percentage of teaching who are designated as regular teachers is 82.1, 80.7 and 72.1 respectively.

6 – Certificates and diplomas

Student certificates and diplomas are presented in the first three tables. Table 6.30 shows the number of teaching certificates issued.

The number of Secondary School Graduation Diplomas issued for 1975 was 94 255, a gain of 10 764 over the 1974 total of 91 851. The number receiving Secondary School Honour Graduation Diplomas is 40 860, only a slight rise of 150 over the 1974 total of 40 710.

The types of teaching certificates have shown increases while others have shown decreases, as compared with the previous year. Letters of permission, elementary and secondary, are 297 and 10 higher than the 80 and 282 last year. Certificates in special subjects issued to holders of basic teaching certificates were down in all divisions, the total being 9 457 this year as compared with 10 717 last year. There were no letters of approval issued for 1974-75.

7 – Administrative units

Tables 7.1 to 7.8 of the eight tables supply school, teacher and enrolment data by board or type of board, by district or regional municipality, and by educational region. In this context an educational region is a defined area in which the Ministry of Education has established a branch office.

Table 7.9 gives a provincial summary of the modes of organization in elementary schools by level of instruction for a given period. The only historical table examines school administrative units, school boards, by type of board from 1965 to 1975.

The numbers of schools with kindergarten activity by language of instruction are:

	English	French	Total
Kindergarten only	11	4	15
Kindergarten only	1949	85	2034
	1073	157	1230
Schools	3033	246	3279

8 – Finance

The tables in this section give current and historical financial data associated with publicly funded elementary and secondary education in Ontario. A new table, 8.15, shows modal values and costs for new school buildings tendered in the five-year period 1971-1975. Pupil transportation provided in the school year 1974-75 is shown in table 8.20. Table 8.30 gives a summary of financial statistics of school boards for the calendar year 1974. This table supplies a breakdown of revenue and expenditures by school type – public, Roman Catholic separate, elementary and secondary. When these tables are read in conjunction with Table 1.30 a moderately detailed financial picture emerges.

Section 9 – Private schools

There were 300 private academic schools enrolling 54 640 students and employing 2 216 full-time and 2 205 part-time teachers. These figures are not strictly comparable with last year's because schools, formerly classified as private schools, are now classified as "special education provincially approved facilities". The reclassified schools had an enrolment of 522 students and employed 106 teachers.

Of the 300 schools 162 with a combined enrolment of 16 342 and 85 with a combined enrolment of 22 954 were classified as elementary and secondary respectively. There were 48 schools with 15 122 students offering both elementary and secondary instruction. The remaining 5 schools with 222 students were classified as "other".

Table 1.00 Public Education in Ontario, September 1975

	Boards operating schools	Schools in operation	Number of full-time teachers	Enrolment Male	Female	Total
Public	117 ¹	2,680	40,711	497,067	464,558	961,625
Roman Catholic Separate	60	1,337	17,456	218,107	209,746	427,853
Sub-total, Elementary	177¹	4,017	58,167	715,174	674,304	1,389,478
Secondary	78	615	34,826	313,189	291,971	605,160 ⁷
Sub-total, Elementary and Secondary	177²	4,632	92,993	1,028,363	966,275	1,994,638⁸
Trainable Retarded Provincial Schools	67 ³	152	830	3,868	3,014	6,882
Schools or Special Education programs in treatment centres	...	16 ⁶	540	1,617	980	2,597
	16 ⁴	16	68	305	188	493
Grand Total	189⁵	4,816	94,431	1,034,153	970,457	2,004,610

¹Two Protestant separate school boards are included in this total.

²Net total excludes duplication of 78 boards of education which operate both elementary and secondary schools, two of which are on Crown lands.

³The Metropolitan Toronto School Board operates only schools for the Trainable Retarded. The remaining 66 boards of education also operate elementary and secondary schools.

⁴Five of these are boards of education that also operate elementary and secondary schools. Eleven are operated by boards established under Section 68 of the Education Act, 1974.

Seventy-eight special education programs in a variety of provincially approved facilities are not included in this table. Sixty-four of these are now being operated under agreements with school boards. The remaining fourteen continue to be the responsibility of each facility until similar agreements can be established with school boards. A more complete report will be made in the 1976 issue of "Education Statistics, Ontario".

⁵Net total excludes duplication of the boards that operate more than one type of school. On September 30, 1975, there was a total of 197 boards but 8 boards did not operate schools.

⁶Four schools, two for the blind and two for the deaf, are institutions operated by the Ministry of Education. The remaining twelve are schools managed by the Ministry of Education in institutions operated by the Ministry of Community and Social Services.

⁷The Ministry of Education operates the James Bay Education Centre in Moosonee.

⁸This total should be used when making comparisons with earlier years in which only elementary and secondary school enrolments were reported.

Boards of Education	Roman Catholic separate school boards	Other boards	Grand total
County	38	Public School	30
District	28	Boards of education, Crown land, hydro etc. ²	9
Cities and Boroughs	10	Roman Catholic separate school	11
		Protestant separate school	2
Total	76	49	177

¹ For further details regarding enrolment by type of board, see Table 7.00

² Two of these boards operate both public and secondary schools. The other 7 operate public schools only.

¹Enrolment in special education classes has been excluded in all but grades 7 and 8 for 1974. The figures shown in parentheses (below the enrolments) are percentages of the corresponding grade 1 enrolments in both publicly supported and private schools. The grade enrolments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through grades 1-8, in publicly supported schools only, may be summarized as follows:

1971 -	100	95	93	91	92	93	91	1974	100	95	93	91	91	91
1972 -	100	95	93	91	92	92	89	1975 -	100	95	94	92	92	95
1973 -	100	95	92	91	91	91	89							

Grade or Year	Grade or year 13 in				
	1972	1973	1974	1975	
9	(1968) 158,608 (100)	(1969) 162,852 (100)	(1970) 165,641 (100)	(1971) 170,738 (100)	
10	(1969) 144,546 (91)	(1970) 150,866 (93)	(1971) 155,066 (94)	(1972) 156,014 (91)	
11	(1970) 123,819 (78)	(1971) 128,765 (79)	(1972) 132,823 (80)	(1973) 134,828 (79)

Honour Graduation Diplomas	(1973) 42,238 (27)	(1974) 40,710 (25)	(1975) 40,860 (25)	—	
First year fall session enrolment of Ontario universities ²	(1973) 35,149 (22)	(1974) 36,888 (23)	(1975) 37,923 (23)	—	

¹This is a revised table in which enrolment in vocational courses is included in total grade enrolment. The figures shown in parentheses (below the enrolments) are percentages of the corresponding grade 9 enrolments. The grade enrolments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through grades 9-13, in publicly supported schools only, may be summarized as follows:

1972-100	91	74	65	32	24	1974-100	94	77	61	31	22
1973-100	93	76	63	31	22	1975-100	91	75	61	32	—

²Enrolment in Ryerson Polytechnical Institute is not included in these figures.

Vital statistics, Ontario, 1957-1974

Comparison of Ontario population and publicly supported elementary and secondary school enrolment by selected age groups, 1970-1975

Population of Ontario and enrolment in publicly supported and private schools by single years of age, 1975

Number of elementary and secondary students who entered Ontario, by province from which entry is made, and sub-total from other countries, September 1975

(new) Students enrolled in Ontario elementary and secondary schools as of September 30, who entered Ontario, by province from which entry is made, and sub-total from other countries, (1973-1975)

Immigration to Canada of children under 18 years of age by province of intended destination, 1965-1975

Immigration to Ontario of children under 19 by age groups and single years of age, 1968-1975

Province of intended destination of immigrants, all ages, 1966-1975 (calendar year)

(new) Number of immigrants, 0-18 years of age by selected locations in Ontario as their intended destinations, 1975 calendar year

Net number of children transferring in or out of each province, 1965-66 to 1974-75

Number of children transferring in or out of each province, October 1974 to September 1975

Live births less infant deaths 1957-1969 with publicly-supported grade one enrolment six years later, 1963-1975

Ontario population in the age groups 4-13 and 14-18 and publicly supported school enrolments, 1970-1975

Immigration to Ontario of children (in thousands) under 19 years of age, 1968-1975

Net number of children transferring in and out of Ontario (in thousands), 1964-65 and 1974-75

Live births less infant deaths, 1958-1975 with publicly supported grade one enrolment six years later, 1964-1975

¹ Unpublished data supplied by Department of Manpower and Immigration, Ottawa. Figures although accurate, differ slightly from those previously published.

² Computed as of December 31st of each year.

³ Figures for these years are slightly inflated by individuals who have previously entered Canada without Landed Immigrant status but who applied between August and October 1973 for Landed Immigrant status under the "Adjustment of Status Program" administered by the Department of Manpower and Immigration. Ontario (Canada) total immigrants, all ages, under this program as of December 28, 1973 and December 27, 1974 were 6,716 (15,505) and 4,727 (10,686) respectively. Of these figures some represent dependants not in the country of those making application. It is felt that a significantly large percentage of the 1974 figures represent dependants.

¹ Until January 1974 the Family Allowance Division, Department of National Health and Welfare, issued monthly reports on the number of families transferring accounts into and out of each province and the two territories, Statistics Canada then prepared an annual summary of the number of families by the average size of family. It then estimated the number of children by multiplying the number of families by the average size of family.

From 1964-65 to 1972-73 inclusive, with the exception of 1970-71, the average size of family in the province from which the families came was used. Prior to 1964-65 and in 1970-71, the average family size in Canada was the multiplier.

Since January 1974, the Department of Health and Welfare reports the actual number of children moving. Statistics Canada began to transmit these figures as of February 1974.

For the earlier part of the reporting period, July 1973 to January 1974, the "averages per family recorded since February 1974 has been used to estimate the number of children moving." The 1973-74 data is not strictly comparable with the earlier data. For further explanation see Interprovincial Movement of Children in Canada, 1973-74, Statistics Canada, catalogue number 81-216.

In January 1974 the age distribution was extended to cover 17 year olds.

¹ In January 1974 the method of reporting by the Department of National Health and Welfare, Family Allowance Division, changed to give actual number of children moving and extended the age distribution to include seventeen year olds.

² The monthly data will permit individuals to observe a pattern of movement during a twelve month cycle. It is felt that an October to September cycle is more appropriate for comparison because it corresponds to the reporting cycle of the September report received from the schools.

³ The numbers reported for each month refer to when the transfers of Family Allowance records were recorded and *not* necessarily when those families moved. In the majority of cases there is at least a month lag and often the lag approaches two months. As a result, figures reported by months and even to some extent by years, should be viewed with these lags in mind.

⁴ The net movement for Yukon and North West Territories was estimated by federal authorities for the months of October, November and December.

- Enrolment and teachers in French language elementary schools by division and year, 1966-1975
- Enrolment of French speaking students in secondary schools by year, division and number of credits in which French is a language of instruction, September 1975
- English-speaking elementary school pupils enrolled in French classes by division, September 1975
- English-speaking secondary school students enrolled in French classes by year and division, September 1975
- Enrolment by age and sex in French language elementary schools, September 1975
- Enrolment by age and sex in French language secondary schools, September 1975
- (new) Admissions, transfers and retirements of French-speaking students in secondary schools since September 30, 1974
- Attendance at summer schools, 1971-1975
- (new) Enrolment in Junior Kindergarten and Kindergarten by region and sex, September 1975
- (new) Junior Kindergarten enrolment by regions, Ontario 1969-1975
- (new) Kindergarten enrolment by type of municipality, September 1975
- (new) Kindergarten and Junior Kindergarten attendance by language of instruction, September 1975
- (new) School dropouts – distribution by school program and last year of registration, September 1975
- (new) School dropouts by age and sex, September 1975
- (new) School re-entrants – distribution by school program and last year of registration, September 1975
- (new) School re-entrants by age and sex, September 1975

¹ Beginning in 1970, enrolment in all secondary school courses was distributed in accordance with a wider definition of grade. Students were reported by grade or by years of schooling beyond kindergarten or by credits or courses completed. In 1972, those with 0-6 credits were reported in grade 9, those with 7-13 credits in grade 10, those with 14-20 credits in grade 11, those with 21-26 credits in grade 12. Candidates registered for honour graduation diploma courses were reported in grade 13.

1975	569,969,005	396,226,885	966,195,890	597,836,924	1,564

¹ During 1969 additional payment in the amount of \$20,913,105 was made for the construction and equipping of vocational accommodation under the terms of agreements between the Government of Canada and the Government of the Province of Ontario. Other payments totalling \$37,399,451, \$53,852,391, \$51,112,265, \$22,343,437, \$4,178,154 and \$777 respectively were made by the Province in the 1969, 1970, 1971, 1972, 1973 and 1974 years to compensate for the phasing out of participation by the Government of Canada area. Vocational grant payments terminated March 31, 1974.

During 1974, additional payment of \$1,470,000 was made re. French Language Instruction. The figure for 1975 (\$1,090,000) is included in the Total General Legislative Grant.

Payment of \$266,097 was made re. Community use of schools in 1975.

² Excludes payments by the Province to school boards for services rendered, such as for the education of pupils from certain unorganized areas and the use of schools for practice teaching.

**Table 8.10 School building construction —
New schools and additions, 1966-1975/76**

Year ¹	Net gain or loss in enrolment	Number of projects completed ²	New and replacement pupil places	Total cost at tender stage \$

Total	186,422	698	271,918	939,086,000

With the exception of net gain in enrolment, which is on a September 30th base, the data are on a calendar year base until 1972. Since 1972 data base has been a fiscal year, April 1st to March 31st.

Building projects are counted in the year of completion.

This table also contains data for the period January 1st to March 31st, 1973 inclusive. Therefore 1973-74 is not strictly comparable with other years.

Table 8.15 New school buildings tendered 1971-1975, modes¹ of size and cost

	Elementary					Secondary

Overseas inspected private schools have a combined secondary school enrolment of 224. Students are not included in the totals shown.

Twenty-five schools, formerly classified as private schools, are now classified as "Special education programs in provincially approved facilities". It follows that these 25 units have been deleted from all private school tables, a deletion of about 106 teachers and 522 pupils. See also 1.00.

Table of Contents

Introduction	7
 Section 1—Summary	 11
Public Education in Ontario, September 1976	12
Administration units operating schools, September 1976	13
Correspondence courses report for 1970-71 to 1975-76	14
Grants and per pupil costs of elementary and secondary education, 1975 (calendar year)	15
 Section 2—Educational Indicators	 17
Progress of students through Grades 1 to 8 (publicly supported and private), 1971-1976	18
Progress of students through Grades 9 to 13 (publicly supported and private) and first year of university, 1973-1976	19
 Section 3—Demographics	 21
Vital Statistics, Ontario, 1958-1975	22
Comparison of Ontario population and publicly supported elemen- tary and secondary school enrolment by selected age groups, 1970- 1976	23
Population of Ontario and enrolment in publicly supported and private schools by single years of age, 1976	24
Immigration to Canada of children under eighteen years of age by province of intended destination, 1966-1976	25
Immigration to Ontario of children aged eighteen and under by age groups and single years of age, 1969-1976	26
Province of intended destination of immigrants, all ages, 1967-1976 (calendar year)	28
Net number of children transferring in or out of each province, 1966-67 to 1975-76	29
Number of children transferring in or out of each province, October 1975/September 1976	31
Live births less infant deaths, 1957-1970, with publicly supported Grade 1 enrolment six years later, 1963-1976	32
 Section 4—Students	 35
Enrolments, transfers, retirements, and admissions, 1975-1976	36
Elementary school enrolment by division, year, and sex, September 1976	37
Secondary school enrolment by division, year, and sex, September 1976	38
Enrolment in public schools, 1955-1976	39
Schools, full-time teachers, enrolment, and "selected indicators" in public schools, 1955-1976	40
Enrolment in Roman Catholic separate schools, 1955-1976	41
Schools, full-time teachers, enrolment, and "selected indicators" in Roman Catholic separate schools, 1955-1976	42
Enrolment in elementary schools, 1955-1976	43
Schools, full-time teachers, enrolment, and "selected indicators" in elementary schools, 1955-1976	44
Enrolment in secondary schools, 1955-1976	45
Schools, full-time teachers, enrolment, and "selected indicators" in secondary schools, 1955-1976	46
Course enrolment by primary category, all divisions for publicly supported secondary schools in the Province of Ontario, 1973-1976	47

4.20	Schools, teachers, and enrolment by enrolment interval, September 1976
4.30	Elementary school enrolment by age and sex, September 1976
4.31	Secondary school enrolment by age and sex, September 1976
4.32	Enrolment by age and sex in schools for the trainable retard September 1976
4.40	W. Ross MacDonald School, Brantford — enrolment by age and level 1976
4.41	Sir James Whitney School, Belleville — enrolment by age and level 1976
4.42	Ernest C. Drury School, Milton — enrolment by age and level, 1976
4.43	The Robarts School, London — enrolment by age and level, 1976
4.50	Enrolment and teachers in French-language elementary schools division and year, 1967-1976
4.51	Secondary school enrolment of French-speaking students in courses in which French is a language of instruction, 1969-1976
4.52	English-speaking elementary school students enrolled in French classes by division, September 1976
4.53	English-speaking secondary school students enrolled in French classes by year and division, September 1976
4.54	Enrolment by age and sex in French-language elementary schools September 1976
4.55	Enrolment by age and sex in French-language secondary schools September 1976
4.56	Enrolment of French-speaking students in secondary schools by year, division, and number of credits in which French is a language of instruction, September 1976
4.60	Attendance at summer schools, 1971-1976
4.70	Enrolment in Junior Kindergarten and Kindergarten by region and sex, September 1976
4.71	Junior Kindergarten enrolment by regions, 1969-1976
4.73	Kindergarten enrolment by type of municipality, September 1976
4.75	Kindergarten and Junior Kindergarten attendance by language of instruction, September 1976
4.92	School dropouts — distribution by school program and last year of registration, September 1976
4.93	School dropouts by age and sex, September 1976
4.94	School re-entrants — distribution by school program and last year of registration, September 1976
4.95	School re-entrants by age and sex, September 1976

Section 5—Teachers

Table

5.00	Full-time teachers, withdrawals, and acquisitions, 1975-1976

Introduction

Education Statistics, Ontario, 1976 is the fourth issue of a separate volume of statistical information on elementary and secondary education in this province. Prior to 1973, such information was published in the *Report of the Minister of Education* to the Legislative Assembly of Ontario. This year's publication contains eighty-eight tables and four graphs that have been compiled mainly from data collected from the September reports of school principals. The tables and graphs are grouped into nine sections.

Section 1: Summary

The tables in this section provide a summary of information on publicly supported elementary and secondary education in Ontario.

On September 30, 1976, there were 185 boards of education operating 4891 schools in Ontario. The total number of boards excludes duplication of those boards that operate more than one type of school. Of the 3995 elementary schools in operation at the end of September 1976, 2657 were public schools with an enrolment of 937 292 students. There were 422 793 students enrolled in 1338 Roman Catholic separate schools. The number of students enrolled in 620 secondary schools was 613 055.

There were 163 schools for the trainable retarded, which were operated by sixty-seven boards of education and which had an enrolment of 7009. Of the boards operating schools for the trainable retarded, only the Metropolitan Toronto School Board did not operate any other type of school. The Ministry of Education was responsible for 16 provincial schools with an enrolment of 2452 students. Four of these were schools for the deaf and the blind. The remaining 12 provincial schools were managed by the Ministry of Education in institutions operated by the Ministry of Community and Social Services.

There were 1804 students enrolled in Special Education programs in ninety-one schools or in treatment centres. These schools were under the jurisdiction of thirty-seven boards of education. Twenty-four of these were boards of education that also operate elementary and/or secondary schools.

The average daily enrolment was 1 317 575 in elementary schools and 583 258 in secondary schools. In addition to these, approximately 62 100 students were enrolled in correspondence courses.

The net day school expenditures per pupil in public, Roman Catholic separate, total elementary, and secondary schools were \$1219, \$1213, \$1217, and \$1841 respectively.

Section 2: Educational Indicators

This section provides information on the estimated progress of students through elementary and secondary grades since 1964. This progress is indicated as a percentage of Grade 1 enrolment in Table 2.9 and as a percentage of Grade 9 enrolment in Table 2.10. It is recorded for both publicly supported and private schools. Of the 170 738 students enrolled in Grade 9 in 1971, 25 per cent graduated with Secondary School Honour Graduation diplomas in 1976 and 16 per cent entered Ontario universities in the fall of the same year.

Section 3: Demographics

The tables in this section provide information on some demographic factors relevant to Ontario education. Tables 3.05 and 3.06 show the relationship between population and school enrolment by selected age groups and by single years of age.

Of the 8.29 million people in Ontario, 23.8 per cent were enrolled in publicly supported elementary and secondary schools in 1976. The elementary and secondary school enrolment of children four to fifteen years of age represents 87.3 per cent of all the children in this age group in Ontario.

Table 3.00 presents Ontario's vital statistics and Table 3.30 examines the relationship between live births and publicly supported Grade 1 enrolment six years later.

The number of live births in 1975 was 125 708, slightly higher than the number of live births in 1974. There were 132 453 live births after subtracting infant deaths in 1970, while Grade 1 enrolment six years later was 141 300.

Tables 3.10, 3.11, 3.12, 3.20, and 3.21 present data on migration. In 1976, 21 996 children under eight years of age immigrated to Ontario, 9569 fewer than in 1975.

Section 4: Students

Information on students enrolled in publicly supported elementary and secondary schools is examined through the use of different categories or criteria in the thirty-six tables in this section. Information is provided on enrolment figures by type of school, by grade, by age and sex, by language for French-speaking students, by division for English-speaking students learning French, and by number of courses taken in summer schools. Four tables are devoted to the distributions of school dropouts and re-entrants by age and sex and by school program and last year of registration.

The number of students enrolled in elementary schools continued to decline. There were 29,000 elementary students in 1976 than the total of 1 389 478 shown in 1975. Secondary school enrolment in 1976 was slightly higher than in 1975; the difference in enrolment was 7895. The percentage decrease in enrolment over the previous year was 2.5 in public schools and 1.2 in Roman Catholic separate schools. During the same period, secondary school enrolment increased by 1.3 per cent.

The highest number of schools was in the 250–299 enrolment interval for elementary schools and the 1100–1199 enrolment interval for secondary schools.

There were fewer students aged sixteen and over enrolled in elementary schools compared to the same category of students in 1975. The age distribution of secondary school students in 1976 was similar to the same distribution in 1975.

There was a slight decrease in the number of French-language elementary schools and their enrolment since 1975. There were 300 French-language elementary schools in 1976 compared to 305 in 1975. The percentage of all elementary students enrolled in French-language elementary schools was 5.5 in 1976 and 5.6 in 1975. There were 24 French-language secondary schools and 36 mixed language secondary schools in 1976. The number of French-speaking secondary school students taking courses in French in 1976 was 5.1 per cent of the total secondary school enrolment; in 1975, the corresponding percentage was 5.2. There were more English-speaking elementary students learning French in 1976 than in 1975. In 1975, 46.9 per cent of all English-speaking elementary students were learning French, whereas the percentage for 1976 was 48.0. The percentage of English-speaking secondary students learning French in 1975 and 1976 was almost the same: 32.3 per cent in 1975 and 32.5 per cent in 1976.

Section 5: Teachers

This section contains ten tables that provide information regarding the teachers employed in elementary and secondary schools.

Two tables are devoted to the movement of teachers within, and in and out of, the publicly supported school system. Table 5.20 gives the number of teachers and other specified staff, and Table 5.21 contains the number of schools, teachers, and enrolment by number of teachers. Table 5.42 gives the years of experience of the teaching staff, while Table 5.45 shows the distribution of teaching staff by the positions held. The remaining four tables contain information on enrolment in teacher education institutions, Ministry of Education summer courses for teachers, and school board-sponsored courses.

There were 57 807 full-time teachers employed in Ontario elementary schools at the end of September 1976, 360 fewer than in 1975. Secondary schools employed 35 352 teachers in 1976, more than in 1975.

It should be noted that a smaller number of teachers withdrew from the publicly supported school system in 1976 than in 1975. The number of teacher withdrawals for elementary schools decreased from 7141 in 1975 to 6697 in 1976 (a difference of 444), while the decrease for secondary schools was from 2555 in 1975 to 2325 in 1976 (a difference of 230). On the other hand, fewer teachers were recruited in both elementary and secondary schools. The number of teachers acquired by elementary schools was 2293 fewer in 1976 than in 1975, while secondary schools recruited 299 fewer teachers in 1976 than in 1975.

Fewer graduates from Ontario teacher education programs entered the teaching profession in 1976 and the number of qualified teachers re-entering the profession decreased by 687 in elementary schools and by 103 in secondary schools.

data in Table 5.42 indicate that elementary and secondary school teachers in 1976 are more expected than in 1975.

Table 5.30 indicates that the largest number of elementary schools was in the category of 11-15 teacher school, while the largest number of secondary schools was in the category of 61-70 teachers school. There were thirty-four elementary and two secondary schools with only one full-time teacher and six elementary and five secondary schools without a full-time teacher.

Section 6: Certificates and Diplomas

This section contains information on certificates and diplomas awarded to students and teachers in Ontario. It also includes data on the final results obtained in Honour Graduation courses during 1975-76.

In 1976, a total of 98 369 Secondary School Graduation diplomas was awarded: 7478 to students in private secondary schools and 90 891 to students in publicly supported secondary schools. The number of Secondary School Honour Graduation diplomas awarded was 42 223: 5355 to students in private secondary schools and 36 868 to students in publicly supported secondary schools. There were 1363 Ontario Scholar diplomas awarded in 1976. The number of Secondary School Graduation diplomas awarded in 1976 exceeded the number awarded in 1975 by 4114, while there were 1363 Secondary School Honour Graduation diplomas awarded in 1976 than in 1975.

Section 7: Administrative Units

This section contains nine tables of educational data categorized according to various administrative units: type of school board; enrolment interval; region, board, and level of instruction; county and district. This section also indicates the types of organization in elementary schools and the scheduling methods used in secondary schools.

Section 8: Finance

Nine tables in this section provide statistical information on grants, school building construction, student transportation, and the revenues and expenditures of school boards by type of school.

Overall legislative grants have increased from \$1.564 billion in 1975 to \$1.705 billion in 1976.

In 1976, the number of building projects completed was 108 for elementary schools and 25 for secondary schools. Both numbers are considerably lower than their 1975 equivalents.

Section 9: Private Schools

There were 320 private schools in 1976, compared to 300 in 1975. The enrolment in private schools increased from 54 640 students in 1975 to 58 679 in 1976, which represents an increase of 7.4 per cent. The number of students in private elementary schools was 24 849 in 1975 and 25 652 in 1976, an increase of 3.2 per cent. Private secondary school enrolment was 10.9 per cent higher in 1976 than in 1975.

Special Education programs in schools and treatment centres	37 ⁴	91	315	1 256	548	1 804
Grand total	185⁵	4 891	94 861	1 023 526	960 879	1 984 405

¹Two Protestant separate school boards are included in this total.

²The total excludes the duplication of seventy-eight boards of education that operate both elementary and secondary schools, two of which are on Crown land.

³The Metropolitan Toronto School Board operates only schools for the trainable retarded. The remaining sixty-six boards of education also operate elementary and/or secondary schools.

⁴Twenty-six of these are boards of education that also operate elementary and/or secondary schools. Four schools are under the jurisdiction of the Ministry of Community and Social Services and one is under the jurisdiction of the Ministry of Health.

⁵The net total excludes the duplication of the boards that operate more than one type of school. On September 30, 1976, there was a total of 197 boards, but 12 boards did not operate schools.

⁶There are sixteen such schools. Six of these operate at both the elementary and secondary level. Four schools, three for the deaf and one for the blind, are institutions operated by the Ministry of Education. The remaining twelve are schools managed by the Ministry of Education in institutions operated by the Ministry of Community and Social Services.

⁷This total should be used when making comparisons with earlier years in which only elementary and secondary school enrolments were reported.

SCHOOL ENROLMENT			total		
County	38	Combined county	28	Public school	28
District	28	Combined district	17	Boards of education, Crown land, hydro, etc. ²	9
Cities and boroughs	10	Metropolitan Toronto, Ottawa, and Windsor	3	Roman Catholic separate school	9
				Protestant separate school	2
				Secondary school	1
Total	76	Total	48	49	173

¹ For further details regarding enrolment by type of board, see Table 7.00.

² Two of these boards operate both public and secondary schools. The other seven operate public schools only.

¹ Enrolment in Special Education classes has been excluded in all but Grades 6, 7 and 8 for 1974. The figures shown in parentheses (below the enrolments) are percentages of the corresponding Grade 1 enrolments in both publicly supported and private schools. The grade enrolments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through Grades 1 to 8, in publicly supported schools only, may be summarized as follows:

1971 - 100	95	93	91	92	93	93	91	91	91	91
1972 - 100	95	93	91	92	92	92	89	94	92	92
1973 - 100	95	92	91	91	91	89	1976 - 100	96	94	93

¹ The figures shown in parentheses (below the enrolments) are percentages of the corresponding Grade 9 enrolments. The grade enrolments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through Grades 9 to 13, in publicly supported schools only, may be summarized as follows:

1973 - 100	93	76	63	31	22	1975 - 100	91	75	61	32	22
1974 - 100	94	77	61	31	22	1976 - 100	89	73	62	32	-

² The figures given here are calculated on a different base from those shown in 1975 and as such are not comparable to the previous figures.

n 3—Demographics

Vital Statistics, Ontario, 1958-1975

Comparison of Ontario population and publicly supported elementary and secondary school enrolment by selected age groups, 1970-1976

Population of Ontario and enrolment in publicly supported and private schools by single years of age, 1976

Immigration to Canada of children under eighteen years of age by province of intended destination, 1966-1976

Immigration to Ontario of children aged eighteen and under by age groups and single years of age, 1969-1976

Province of intended destination of immigrants, all ages, 1967-1976 (calendar year)

Net number of children transferring in or out of each province, 1966-67 to 1975-76

Number of children transferring in or out of each province, October 1975 — September 1976

Live births less infant deaths, 1957-1970, with publicly supported Grade I enrolment six years later, 1963-1976

Immigration to Ontario of children (in thousands) under nineteen years of age, 1969-1976

Net number of children transferring in and out of Ontario (in thousands), 1966-67 to 1975-76

Live births less infant deaths, 1958-1975 with publicly supported Grade I enrolment six years later, 1964-1976

¹ Statistics Canada estimates except those for 1971 and 1976. The former are census figures while the latter, which are subject to change, are taken from *Population Projections for Canada and the Provinces 1972-2001*, projection D, page 157, and unpublished data. Census data for 1976 will be released later this year by Statistics Canada. Until then, Statistics Canada has advised that projection D appears to be the closest approximation.

² Enrolment on the last school day in September

¹ Unpublished data supplied by Department of Manpower and Immigration, Ottawa. The figures, although accurate, differ slightly from those previously published.

² Computed as of December 31 of each year

³ The figures for these years are slightly inflated, as individuals who entered Canada without "landed immigrant" status applied for such status under the "Adjustment of Status Program" and did not appear in the original figures.

¹ The figures for these years are slightly inflated, as individuals who entered Canada without "landed immigrant" status applied for such status under the "Adjustment of Status Program" administered by the Department of Manpower and Immigration.

¹ Until January 1974, the Family Allowance Division, Department of National Health and Welfare, issued monthly reports on the number of families transferring accounts into and out of each province and the two territories. Statistics Canada then prepared an annual summary of the number of families by the average size of family. It then estimated the number of children by multiplying the number of families by the average size of family. From 1966-67 to 1972-73 inclusive, with the exception of 1970-71, the average size of family in the province from which the families came was used. In 1970-71, the average family size in Canada was the multiplier.

For further explanation see "Interprovincial Movement of Children in Canada, 1973-74", Statistics Canada, Cat. 81-216.

¹ The monthly data will permit individuals to observe a pattern of movement during a twelve-month cycle. It is felt that an October-to-September cycle is more appropriate for comparison than a calendar year because it corresponds to the reporting cycle of the September Report received from the schools.

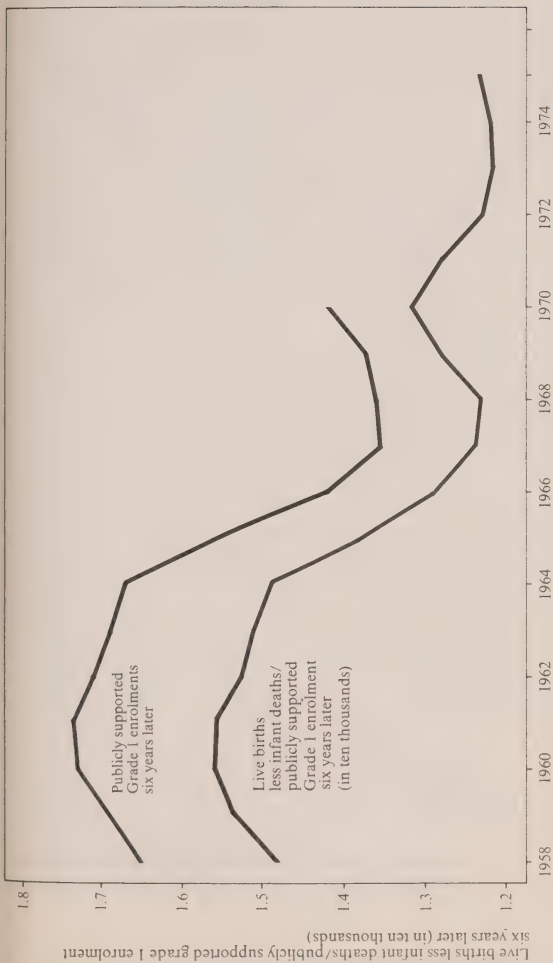

² The numbers reported for each month were taken from the Family Allowance records showing when transfers were recorded; they do not necessarily reflect the months when families moved. In the majority of cases there is a lag of at least a month; often the lag approaches two months. As a result, figures reported by months, and even to some extent by years, should be viewed with these lags in mind.

³ The net movement for the Yukon and the Northwest Territories was estimated by federal authorities for the months of October, November, and December.

¹ Teachers include all principals, vice-principals, heads of departments, and other non-teaching staff employed in the school.

² In calculating the pupil/teacher ratio, the number of students (head count) is divided by the number of teachers.

¹ Teachers include all principals, vice-principals, heads of departments, and other non-teaching educational staff employed in the school.

² In calculating the pupil/teacher ratio, the number of students (head count) is divided by the number of teachers.

Enrolment in 1970, enrolment in all secondary school courses was distributed in accordance with a redefinition of grade. Students were reported by grade or by years of schooling beyond Kindergarten or by credits or courses completed. In 1972, those with 0–6 credits were reported in Grade 9, those with 7–13 credits in Grade 10, those with 14–20 credits in Grade 11, those with 21–26 credits in Grade 12. Candidates registered for Honour Graduation Diploma courses were reported in Grade

¹The code numbers shown are the first two digits of a five-digit code that is used to identify guideline courses and experimental courses. The letter that preceded the five digits, e.g. "honour", is omitted here as all the courses in this table are honour courses. The complete course is given in such Ministry publications as curriculum guidelines and in material where enrolment course are given.

²The total number of candidates shown here is calculated on a different basis to that shown in the previous year, and, therefore, is not strictly comparable.

Accounting	93

The code numbers shown are the first two digits of a five-digit code that is used to identify both guideline courses and experimental courses. The letter that preceded the five digits, e.g., "H" for honour, is omitted here as all the courses in this table are honour courses. The complete code is used in such Ministry publications as curriculum guidelines and in material where enrolments by course are given.

Number of schools using other modes of organization									
Primary	159								
Junior	165								
Intermediate	112								

b) Number of elementary schools with a parent-teacher association, home-and-school association, or association de parents et instituteurs									
					1 429				
c) Number of schools² using the following methods of reporting to parents									
Traditional	2 602								
Anecdotal	3 762								
Interviews	3 955								
Home visits	822								

Number of elementary schools: 3 995

¹ This column includes some schools that do not operate at the level indicated.

² There is overlapping in this classification as some schools have more than one method of reporting.

**Table 7.42 Scheduling patterns in secondary schools,
September 1976**

Scheduling pattern ¹	Number of schools
Full credit, full year	451
Full credit, two semesters	155
One-half credit, two semesters	64
One-third credit, two semesters	13
Other	44

¹Scheduling categories are not exclusive. There are 363 schools with full-credit, full-year programs only, while 257 schools have one or more semester patterns. Of the latter, 88 schools are partially semestered.

¹ Payments totalling \$53 852 391, \$51 112 265, \$22 343 437, \$4 178 154, and \$777 055 respectively made by the province in the 1970, 1971, 1972, 1973, and 1974 calendar years to compensate for the phasing out of participation by the Government of Canada in this area. Vocational grant program terminated March 31, 1974.

Additional payments for French-language instruction in the National Capital Region are included in the "Total General Legislative Grants". These totalled \$1 470 000, \$1 090 000, and \$2 370 000 in the 1974, 1975, and 1976 calendar years respectively.

² Excludes payments by the province to school boards for services rendered, such as for the operation of schools for practice teaching and the Students' Summer Employment Program

the exception of "net gain in enrolment", which is on a September 30 base, the data are on a calendar-year base until 1972. Since 1972, the data base has been a fiscal year – April 1 to March 31. Building projects are counted in the year of completion.

This table contains data for the period January 1 to March 31, 1973, inclusive. Therefore, 1973–74 is not directly comparable with other years.

Table 8.15 New school buildings tendered 1971-1976, modes¹ of size and cost

Table of Contents

Introduction	7
Section 1-Summary	11
Public Education in Ontario, September 1977	12
Administrative units operating schools, September 1977	13
Correspondence courses report for 1970-71 to 1976-77	14
Grants and per pupil costs of elementary and secondary education, 1976 (calendar year)	15
Section 2-Educational Indicators	17
Progress of students through Grades 1 to 8 (publicly supported and private), 1972-1977	18
Progress of students through Grades 9 to 13 (publicly supported and private) and first year of university, 1973-1977	19
Section 3-Demographics	21
Vital Statistics, Ontario, 1958-1976	22
Comparison of Ontario population and publicly supported elementary and secondary school enrolment by selected age groups, 1970-1977	23
Population of Ontario and enrolment in publicly supported and private schools by single years of age, 1977	24
Number of elementary and secondary students who entered Ontario, by province from which entry was made, and sub-total from other countries, September 1977	25
Immigration to Canada of children under eighteen years of age by province of intended destination, 1966-1977	26
Immigration to Ontario of children aged eighteen and under by age groups and single years of age, 1970-1977	27
Province of intended destination of immigrants, all ages, 1967-1977 (calendar year)	29
Net number of children transferring in or out of each province, 1966-67 to 1976-77	30
Number of children transferring in or out of each province, October 1976 - September 1977	32
Live births less infant deaths, 1957-1971, with publicly supported Grade 1 enrolment six years later, 1963-1977	33
Section 4-Students	35
Enrolments, transfers, retirements, and admissions, 1976-1977	36
Resident, non-resident student enrolment, 1977	37
Elementary school enrolment by division, grade, and sex, September 1977 ..	38
Secondary school enrolment by division, grade, and sex, September 1977 ...	39
Enrolment in public schools, 1955-1977	40
Schools, full-time teachers, enrolment, and "selected indicators" in public schools, 1955-1977	41
Enrolment in Roman Catholic separate schools, 1955-1977	42
Schools, full-time teachers, enrolment, and "selected indicators" in Roman Catholic separate schools, 1955-1977	43
Enrolment in elementary schools, 1955-1977	44
Schools, full-time teachers, enrolment, and "selected indicators" in elementary schools, 1955-1977	45
Enrolment in secondary schools, 1955-1977	46
Schools, full-time teachers, enrolment, and "selected indicators" in secondary schools, 1955-1977	47

4.17	Course enrolment by primary category, all divisions for publicly supported secondary schools in the Province of Ontario, 1974-1977
4.20	Schools, teachers, and enrolment by enrolment interval, September 1977
4.30	Elementary school enrolment by age and sex, September 1977
4.31	Secondary school enrolment by age and sex, September 1977
4.32	Enrolment by age and sex in schools for the trainable retarded, September 1977
4.40	W. Ross MacDonald School, Brantford – enrolment by age and level, September 1977
4.41	Sir James Whitney School, Belleville – enrolment by age and level, September 1977
4.42	Ernest C. Drury School, Milton – enrolment by age and level, September 1977
4.43	The Robarts School, London – enrolment by age and level, September 1977
4.50	Enrolment and teachers in French-language elementary schools by division and grade, 1967-1977
4.51	Secondary school enrolment of French-speaking students in courses in which French is a language of instruction, 1969-1977
4.52	English-speaking elementary school students enrolled in French classes by grade, September 1977
4.53	English-speaking secondary school students enrolled in French classes by division and grade, September 1977
4.54	Enrolment by age and sex in French-language elementary schools, September 1977
4.55	Enrolment by age and sex in French-language secondary schools, September 1977

Education Statistics, Ontario, 1977 is the fifth issue of a separate volume of statistical information on elementary and secondary education in this province. Prior to 1973 such information was published in the *Report of the Minister of Education* to the Legislative Assembly of Ontario. This issue of the publication contains eighty-nine tables and four graphs. Most of the data are collected from the September reports which are completed by school principals. The tables and graphs are grouped into nine sections.

Section 1: Summary

The four tables in this section provide a summary of information on publicly supported elementary and secondary education in Ontario.

On September 30, 1977, there were 194 boards of education, but 8 boards did not operate schools. Of the 186 boards operating schools, 117 were responsible for public schools and 57 for Roman Catholic separate schools. Secondary schools were under the jurisdiction of 79 boards, 78 of which operated elementary schools also. Schools for the trainable retarded were the responsibility of 67 boards, of which only the Metropolitan Toronto School Board did not operate any other type of school. The Ministry of Education managed all the provincial schools and operated four of these, three for the deaf and one for the blind. The rest were operated by the Ministry of Community and Social Services and the Ministry of Correctional Services.

Special Education programs in schools and treatment centres were under the jurisdiction of forty boards of education, thirty of which also operated elementary and/or secondary schools. There were 777 students enrolled in 2649 public schools and 421 619 students enrolled in 1329 Roman Catholic separate schools. The number of students enrolled in 622 secondary schools was 613 830.

The figure for enrolment in 168 schools for the trainable retarded was 7082, while the number of students enrolled in 17 provincial schools was 2339. There were 1965 students enrolled in 104 Special Education programs in schools and treatment centres. There were 7429 students enrolled in schools designed for the instruction of Indian students. These schools are funded by the Federal Department of Indian Affairs and Northern Development.

The average daily enrolment was 1 294 776 in elementary schools and 594 988 in secondary schools. Approximately 77 147 students were enrolled in correspondence courses.

The day-school expenditure was \$1437 per pupil in public schools, \$1422 per pupil in Roman Catholic separate schools and \$2127 per student in secondary schools.

Section 2: Educational Indicators

The two tables in this section provide information on the progress of students through elementary and secondary schools (publicly supported and private) since 1965. The estimated progress through elementary school grades is shown as a percentage of the corresponding Grade 1 enrolment. The progress through secondary school grades is indicated as a percentage of the corresponding Grade 9 enrolment. Of the 169 315 pupils enrolled in Grade 1 in publicly supported and private schools in 1977, 92 per cent were enrolled in Grade 8 in 1977. Of the 176 610 students enrolled in Grade 9 in 1977, 24 per cent graduated with Secondary School Honour Graduation diplomas in 1977 and 15 per cent registered at Ontario universities in the fall of the same year.

Section 3: Demographics

The ten tables and three graphs in this section provide demographic information relevant to Ontario education. The data indicate the influence of births and of net interprovincial and net international migration on school enrolment in Ontario. Table 3.00 contains information on Ontario's vital statistics while Table 3.30 shows the influence of live births on Grade 1 enrolment six years later.

There were 122 656 live births in 1976, 3052 fewer than in 1975. The number of live births after subtracting infant deaths in 1971 was 128 405. The Grade 1 enrolment six years later was 137 644.

Tables 3.05 and 3.06 indicate the relationship between population and school enrolment in selected groups and by single years of age.

Of the 978 400 people in the three to twenty-two-year-old age group, 67.6 per cent were enrolled in publicly supported and private schools in Ontario.

Data on migration are presented in the rest of the tables in this section. Table 3.08 shows that in 1977, 30 650 elementary school students and 10 008 secondary school students immigrated to Ontario. Interprovincial migration accounted for 20 065 of these students, while immigration from other countries was 20 593. Forty-two per cent of students entering Ontario from other provinces came from Quebec.

Section 4: Students

This section, the largest in the publication, contains thirty-five tables with information on enrolment in publicly supported elementary and secondary schools. Data are arranged in different categories using criteria such as age and sex, number of courses in summer schools, grade, type of school, and so on.

There were 1 329 396 pupils enrolled in elementary schools on September 30, 1977, 30 690 fewer than in 1976. The decline in elementary school enrolment was greater in public schools than in Roman Catholic separate schools. The decrease in enrolment was 3.1 per cent in public schools and 1.1 per cent in Roman Catholic separate schools. Enrolment in secondary schools was almost the same in 1977, showing an increase of only 0.1 per cent. For the first time, data on resident and non-resident students enrolled in elementary and secondary schools at three different points in time are included in the publication. These are provided in Table 4.02. The same table contains information on the number of half-time students and the number and full-time equivalent of part-time students enrolled in Ontario schools.

The number of students enrolled in the 296 French elementary schools was 72 453, 2136 fewer than in 1976. There were 21 621 students enrolled in 25 French secondary schools, 165 more than in 1976.

The number of English-speaking students enrolled in French classes continued to increase. Percentages of English-speaking students enrolled in French classes were 54.3 for elementary schools and 34.5 for secondary schools. Comparable percentages in 1976 were 50.8 and 34.3 respectively.

Section 5: Teachers

The tables in this section provide data on teachers employed in publicly supported elementary and secondary schools in Ontario.

Teacher movement within and in and out of the publicly supported system is examined in Tables 5.01 and 5.02. Table 5.20 contains information on paid and volunteer teacher aides and para-professionals employed in elementary and secondary schools. Four tables are devoted to enrolment in education institutions, Ministry of Education summer courses for teachers, and school board sponsored winter courses.

On September 30, 1977, there were 56 772 full-time teachers employed in Ontario elementary schools, 1035 fewer than in 1976. The number of teachers employed in secondary schools was 35 454, 165 more than in 1976.

There were 5853 teachers withdrawing from the publicly supported elementary school system in 1977, 844 fewer than in 1976. The number of teachers leaving secondary schools was 2165, 163 fewer than in 1976. In 1977, fewer teachers withdrew to teach outside Ontario and to enrol in teachers' colleges, universities, and other educational institutions. The number of teachers recruited for elementary schools also decreased. There were 1519 fewer teachers acquired for elementary schools in 1977 than in 1976, and 587 fewer were recruited for secondary schools in 1977 than in 1976. Fewer graduates were acquired to teach in elementary and secondary schools in 1977 than in 1976. The difference was 1035 fewer in elementary schools and 391 in secondary schools.

Table 5.42 shows that teachers were more experienced in 1977 than in 1976. There was a decline in the number of beginners in 1977 compared with 1976.

The distributions of elementary and secondary schools by number of teachers did not change substantially from 1976. The main change was in the number of schools without full-time teachers. There were twelve elementary and six secondary schools in that category in 1977 compared with five respectively in 1976.

Section 6: Certificates and Diplomas

This section provides the data on certificates and diplomas awarded to students and teachers. It also contains information on the final results obtained in Secondary School Honour Grade courses during 1976-77.

In 1977, 100 792 students obtained Secondary School Graduation diplomas: 92 151 in publicly supported secondary schools and 8 641 in private schools. The number of Secondary School Honour graduation diplomas awarded in 1977 was 43 128. Of these, 37 495 were awarded to students in publicly supported secondary schools and 5633 to students in private schools. There was an increase in the number of diplomas awarded in both categories. The increase was higher in private schools.

Section 7: Administrative Units

Data in this section are organized into nine tables. Table 7.00 provides a summary of information on schools, full-time teachers, and enrolment by type of school board. The distribution of boards by enrolment interval and type of board is given in Table 7.10, while Table 7.11 is a historical summary showing the number of boards by type of school.

Table 7.20 contains data on enrolment by division, number of schools, full-time teachers, and the full-time equivalent of all teachers for all the boards within each educational region. Total enrolment, number of full-time teachers, and number of schools by county and district are provided in Table 7.30.

Tables 7.40 and 7.42 contain the data on elementary and secondary school organization.

Section 8: Finance

Five tables in this section provide statistical information on provincial grants to school boards, school building construction, pupil transportation provided by school boards, and the expenditure and revenues of school boards.

There was an increase in total general legislative grants from \$1.705 billion in 1976, to \$1.858 billion in 1977.

The total cost of home – school transportation for 599 352 students, at an average of 1.09 miles per day, per pupil, was \$118 149 761. Average expenditure per student transported was \$197.12.

Section 9: Private Schools

On September 30, 1977, there were 346 private schools in Ontario. The number of students enrolled in private schools was 61 250, 2571 more than in 1976. The increase in enrolment was 4.4 per cent compared to 7.4 per cent in 1976. There were 26 445 students enrolled in private elementary schools and 34 805 in private secondary schools.

Private elementary school enrolment was 3.1 per cent higher in 1977 than in 1976. At the same time, private secondary school enrolment increased by 5.4 per cent. Comparable percentages for 1976 were 1.8 in elementary and 10.9 in secondary schools.

Legend

The following symbols are used in the statistical tables:

- figures not available
- figures not appropriate or applicable
- nil or zero

Section 1—Summary

Table

1.00	Public Education in Ontario, September 1977
1.10	Administrative units operating schools, September 1977
1.20	Correspondence courses report for 1970-71 to 1976-77
1.30	Grants and per pupil costs of elementary and secondary education, 1976 (calendar year)

Grand total	186⁵	4 895	94 016	1 006 305	946 342	1 954 612

¹ Two Protestant separate school boards are included in this total.

² The total excludes the duplication of seventy-eight boards of education that operate both elementary and secondary schools, two of which are on Crown land.

³ The Metropolitan Toronto School Board operates only schools for the trainable retarded. The remaining sixty-six boards of education also operate elementary and/or secondary schools.

⁴ Thirty of these are boards of education that also operate elementary and/or secondary schools.

⁵ The net total excludes the duplication of the boards that operate more than one type of school. On September 30, 1977, there was a total of 194 boards, but 8 boards did not operate schools.

⁶ There are seventeen such schools managed by the Ministry of Education. Six of these operate at both the elementary and secondary level. Four schools, three for the deaf and one for the blind, are institutions operated by the Ministry of Education. Of the remaining schools, twelve are in institutions operated by the Ministry of Community and Social Services, and nine are in institutions operated by the Ministry of Correctional Services, of which information for only one school is included in the above table.

⁷ This total should be used when making comparisons with earlier years in which only elementary and secondary school enrolments were reported.

¹ Enrollment in Special Education classes has been excluded in all but Grades 5, 6, 7, and 8 for 1974. The figures shown in the percentage columns (%) are percentages of the corresponding Grade 1 enrollments in both publicly supported and private schools. The grade enrollments used in the calculations are simply yearly counts unadjusted for movements into and out of the system. The progress of students through Grades 1 to 8, in publicly supported schools only, may be summarized as follows:

1972 - 100	95	93	91	92	92	89	1975 - 100	95	94	92	92	95	89
1973 - 100	95	92	91	91	91	89	1976 - 100	96	94	93	93	94	90
1974 - 100	95	93	91	91	91	91	1977 - 100	96	95	94	97	94	95

¹ Until January 1974, the Family Allowance Division, Department of National Health and Welfare, issued monthly reports on the number of families transferring accounts into and out of each province and the two territories. Statistics Canada then prepared an annual summary of the number of families by the average size of family. It then estimated the number of children by multiplying the number of families by the average size of family. From 1966-67 to 1972-73 inclusive, with the exception of 1970-71, the average size of family in the province from which the families came was used. In 1970-71, the average family size in Canada was the multiplier.

For further explanation see "Interprovincial Movement of Children in Canada, 1973-74", Statistics Canada, Cat. 81-216.

¹ The monthly data will permit individuals to observe a pattern of movement during a twelve-month cycle. It is felt that an October-to-September cycle is more appropriate for comparison than a calendar year because it corresponds to the reporting cycle of the September Report received from the schools.

² The numbers reported for each month were taken from the Family Allowance records showing when transfers were recorded; they do not necessarily reflect the months when families moved. In the majority of cases there is a lag of at least a month; often the lag approaches two months. As a result, figures reported by months, and even to some extent by years, should be viewed with these lags in mind.

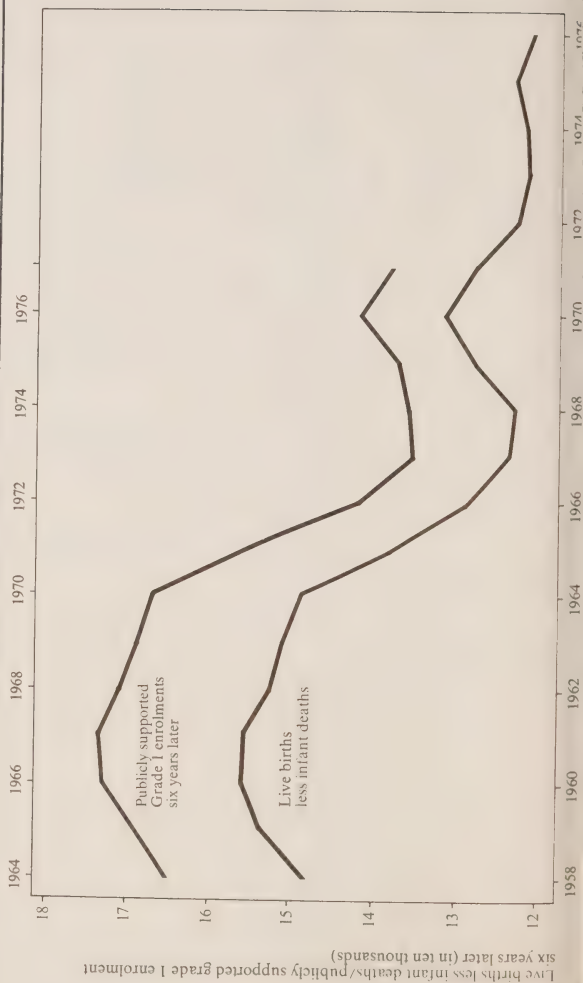

³ The net movement for the Yukon and the Northwest Territories was estimated by federal authorities for the months of October, November, and December.

Teachers include all principals, vice-principals, heads of departments, and other non-teaching instructional staff employed in the school.

² Calculating the pupil/teacher ratio, the number of students (head count) is divided by number of teachers.

¹ Beginning in 1970, enrolment in all secondary school courses was distributed in accordance with a wider definition of grade. Students were reported by grade or by years of schooling beyond Kindergarten or by credits or courses completed. In 1972, those with 0-6 credits were reported in Grade 9, those with 7-13 credits in Grade 10, those with 14-20 credits in Grade 11, those with 21-26 credits in Grade 12. Candidates registered for Honour Graduation Diploma courses were reported in Grade 13.

² Pre-Grade 9 students are those enrolled in special secondary school programs less than two years after leaving the junior division and who are taking course-work that does not lead to credit.

Table 4.15(b) Schools, full-time teachers,¹ enrolment, and "selected indicators" in secondary schools, 1955-1977

2. School dropouts who continue education²

All ages	27	18	707	723	610	656	584	591	1 231	1 341	1 744	1 635	4 903	4 964
----------	----	----	-----	-----	-----	-----	-----	-----	-------	-------	-------	-------	-------	-------

Includes *in-term* dropouts and *no-show* dropouts. An *in-term* dropout is a student who leaves the Ontario publicly supported secondary school system before completing the academic year or semester in which he/she was enrolled.

A *No-show* dropout is a student who does not return to any publicly supported secondary school for a subsequent academic year or semester in which the student was expected to enrol as evidenced by a completed option form.

Includes school dropouts who continue education outside the Ontario publicly supported secondary school system: e.g., early admission to university or community college, or transfer to private school, training program, separate school, etc.

¹The code numbers shown are the first two digits of a five-digit code that is used to identify guideline courses and experimental courses. The letter that preceded the five digits, e.g., "honour", is omitted here as all the courses in this table are honour courses. The complete code is used in such Ministry publications as curriculum guidelines and in material where enrolment in a course are given.

	93

The code numbers shown are the first two digits of a five-digit code that is used to identify both line courses and experimental courses. The letter that preceded the five digits, e.g., "H" for "Honour", is omitted here as all the courses in this table are honour courses. The complete code is given in such Ministry publications as curriculum guidelines and in material where enrolments by course are given.

¹ The distribution by region in this table is based on the municipality in which the school is located. For distribution based on the location of the board headquarters, see Tables 7.20 and 7.21.

Table 7.40 Organization in elementary schools, September 1977

	Number of schools
.. Parent-teacher association or association de parents et instituteurs	1 424
.. Advisory committee composed of school, parent and community representatives	1 110
.. Forms of reporting to parents ¹	
) Traditional	2 888
) Anecdotal	3 769
) Interviews	3 942
) Home visits	948

There is overlapping in this classification as some schools have more than one method of reporting.

Table 7.42 Scheduling patterns in secondary schools, September 1977

Scheduling pattern ¹	Number of schools
Full credit, full year	465
Full credit, two semesters	170
One-half credit, two semesters	83
One-third credit, two semesters	25
Quarter	46

Scheduling categories are not exclusive. There are 337 schools with full-credit, full-year programs only, while 282 schools have one or more semester patterns. Of the latter, 125 schools are partially semestered. There are three unstructured secondary schools.

¹ Payments totalling \$51 112 265, \$22 343 437, \$4 178 154, and \$777 055 respectively were made to the province in the 1971, 1972, 1973, and 1974 calendar years to compensate for the phasing out of participation by the Government of Canada in this area. Vocational grant payments terminated March 31, 1974.

Additional payments for French-language instruction in the National Capital Region are included in the "Total General Legislative Grants". These totalled \$1 470 000, \$1 090 000, and \$2 377 614 400 194 in the 1974, 1975, 1976, and 1977 calendar years respectively.

² Excludes payments by the province to school boards for services rendered, such as for the schools for practice teaching and the Students' Summer Employment Program.

With the exception of "net gain in enrolment", which is on a September 30 base, the data are on a calendar-year base until 1972. Since 1972, the data base has been a fiscal year – April 1 to March 31. Building projects are counted in the year of completion.

This table contains data for the period January 1 to March 31, 1973, inclusive. Therefore, 1973–74 is not strictly comparable with other years.
